

The Professional Geographer

Guidelines for Final Submission of Accepted Manuscripts

Please carefully review these instructions, the Information for Authors, and the PG Graphics Guidelines before submitting the final version of your accepted manuscript. Publication will be delayed for papers that do not meet the criteria laid out in these guidelines. For guidance or queries, please contact the Managing Editor at profgeog@aag.org or 202-234-1450 ext. 163.

Authors whose manuscripts have been accepted for publication should submit the final version of their accepted manuscript and all graphic materials to the Managing Editor in digital form on a CD Rom. Do not submit your final materials via AAG Manuscript Central. Authors should also send 1 clean hard copy of the full paper (including figures, tables, appendices, etc.). All materials should be accompanied by a cover sheet that includes the title of the paper, the names of all authors and their affiliations, addresses, phone numbers, fax numbers, and e-mail addresses, and a list of all electronic files and their formats.

Text Materials. The written portion of the manuscript should be submitted according to the format outlined in the Information for Authors. Authors are required to use Microsoft Word and should utilize common type styles such as Times New Roman or Helvetica (12 point). If a unique font must be used (e.g., Greek characters), then a postscript font file should be placed on the CD along with the other files, and its presence noted on the cover sheet. The title page, abstract and key words, main text, notes, references, figure captions, and appendix should be saved as one file; however, tables should be saved separately (all tables should be saved as a single file). Figures are *not* to be embedded in the text file.

Graphic Materials. All graphic materials should be submitted in accordance with the *PG Graphics Guidelines*. Please contact Thomas Hodler, the journal's Cartography Editor, at cartedit@uga.edu or 706-542-6913 with questions about file formats, production alternatives, and design problems. Please note that the Managing Editor will send final figure files to the Cartography Editor prior to sending them to the publisher for production work. Dr. Hodler will contact the author directly if any clarifications are needed or if any changes need to be made to the figures. Authors may print up to six color illustrations at no charge. Authors wishing to include additional color illustrations may be expected to cover a percentage of the cost of printing. On request, the Managing Editor (profgeog@aag.org or 202-234-1450) will provide an estimate.

Copyright. Authors will be issued a copyright transfer agreement when their paper has been accepted. The corresponding author should send the completed form to the Managing Editor with their final files. An article cannot be published in the *PG* until this signed form has been submitted. In accordance with copyright law, the manuscript must not duplicate substantial portions of previously published material. If a manuscript incorporates previously published material (in the form of text, tables, or figures), the *author* is responsible for obtaining written permission from the holder of the copyright and for any costs associated with the use of the copyrighted materials.

Page Charges. For articles only, payment of \$40 per page is requested from research grant or other institutional funds available to underwrite publication costs. Coverage of costs is not mandatory and ability to pay is *not* a condition for publication of an article. Authors will receive a Page Charge request letter directly from the publisher when galley pages are released.

Offprints. Authors of articles will receive a free PDF offprint upon publication. Authors who wish to order hard copy reprints may do so at their own expense upon receipt of page proofs. A reprint order form will be provided.

Send final materials to:
