GENERAL INFORMATION

ACCESSIBILITY
In support of the Americans with Disabilities Act, the AAG and its contracted facilities will accommodate reasonable requests for accessibility to the extent possible. Individuals requiring special accommodations are asked to make their specific needs known to the AAG or to the facilities.

ALCOHOL
The AAG expects all attendees to act responsibly when consuming alcoholic beverages. Consumption of alcohol by those under the age of 21 is prohibited.

BAGS/COATS/PACKAGES
For security reasons, the AAG is unable to hold attendees’ bags, packages, briefcases, coats, laptops or other personal items at registration. For your own safety and the security of your belongings, we strongly recommend checking these items at the bell stand of the Hilton San Francisco.

CHILD CARE
AAG will reimburse registered attendees for child care at the rate of $10 per hour for a maximum of 30 hours. Reimbursement forms will be available at the AAG Registration Desk. A check will be sent to the attendee after receipts have been furnished along with the reimbursement form. Reimbursement is only available for child care on-site in San Francisco. No reimbursement is made for child care at your home while you are in San Francisco. All child care arrangements should be made by the individual attendee. In-room hotel child care is available from American Child Care Services, Inc. (415-285-2300 or www.americanchildcare.com) or ABC Bay Area Child Care (415-309-5662). AAG does not endorse, recommend, or promote any one agency. Responsibility for selection and investigation of an agency’s credentials is the sole responsibility of the child’s parent or guardian.

CONFERENCE ASSISTANTS
Please report to the Conference Assistant Desk (Grand Ballroom Salon A, located on the Grand Ballroom level of the Hilton San Francisco) no later than 30 minutes prior to your first scheduled shift. Upon check-in you will receive all pertinent information and instructions regarding your duties.
INTERNET ACCESS
Complimentary Wireless Internet service is available 24 hours a day for all attendees on the Lobby level of the Hilton San Francisco. Internet stations will also be provided by AAG to conference attendees in Salon A of the Grand Ballroom. The Grand Ballroom is located on the Grand Ballroom level of the Hilton San Francisco, two levels up from the Main Lobby (use elevator bank #2 or escalators). As a courtesy to other conference attendees, please limit your time at the Internet stations to 15 minutes. Internet stations will be open during registration hours (see page 10).

MEETING VENUES
Sessions, workshops and special events will be held in locations indicated in the description. Most conference activities will take place at the Hilton San Francisco. All field trips will depart from the main level of the Hilton at the Taylor Street entrance.

NON-SMOKING POLICY
The AAG maintains a non-smoking policy in all meeting rooms, the exhibit area, and the registration area. Smoking is allowed only in designated smoking areas of the hotel.
PHOTOGRAPHY IN SESSIONS
Photos may not be taken during paper or poster presentations without the permission of the presenter. Anyone taking a photo without permission will be asked to leave the conference.

PRESENTATION CONTENT
The Annual Meeting of the Association of American Geographers is an open forum for sharing the results of research and teaching in geography and related specialties. The contents of annual meeting presentations by individuals or groups at the annual meeting are theirs alone. The Association of American Geographers neither endorses nor disclaims the conclusions, interpretations, or opinions expressed by speakers at its annual meeting.

PROFESSIONAL CONDUCT
Professional ideas and information are exchanged most effectively at the AAG’s Annual Meeting in an atmosphere free of abuse or harassment and characterized by courtesy and respect. To that end, the AAG expects all individuals who attend to conduct themselves in a manner that establishes an atmosphere free from discriminatory practices.

REGISTRATION
AAG Registration will be located in Grand Ballroom Salon A, located on the Grand Ballroom level of the Hilton San Francisco (from the Main Lobby, take elevator bank #1 or #2 or escalators to the Grand Ballroom level). Registration will be open during the following hours:

LOCAL TRANSPORTATION

The Bay Area Rapid Transit (BART) rail system connects the San Francisco Peninsula with Oakland, Berkeley, Fremont, Walnut Creek, Dublin/Pleasanton, and other cities in the East Bay. BART provides service to 43 stations in the San Francisco Bay Area. The Hilton San Francisco and Hotel Nikko San Francisco are just blocks from the Powell Street Station. Everyone (over the age of 4) must have a BART ticket. BART fares are based on distance traveled. You can determine the cost of your trip by using one of the fare charts located at each station. You can buy BART tickets at station vending machines. All vending machines accept nickels, dimes and quarters, $1, $5 and $10 bills. Select machines accept $20 bills and provide change. Vending machines sell tickets for any value between $1.40 and $60.00, so one ticket can be used for several trips. You can also use a credit card in select machines at all stations. BART also services San Francisco International Airport (30 minutes from the Powell Street Station) and Oakland International Airport (less than 30 minutes from the Powell Street Station).

San Francisco Municipal Railway (Muni) is one of America’s oldest public transit agencies and today carries over 200 million riders per year. Muni provides transit service within the city and county of San Francisco 24 hours a day, 7 days a week (but not to the airports). Operating Historic streetcars, modern light rail vehicles, diesel buses, alternative fuel vehicles, electric trolley coaches and the world famous cable cars, Muni’s fleet is among the most diverse in the world. Bus, historic streetcar, and Metro trips for adults cost $1.50; the fare is good for 90 minutes with a transfer. Always ask for a transfer on all Muni lines except cable cars, even if you do not plan to transfer to another vehicle. Transfers are issued on request at the time the fare is paid. In Muni Metro underground stations, fares can be paid with US $1 bills plus additional coins to add up to your fare. Exact change is required. The Hilton and Hotel Nikko are just three blocks from the Muni Station at Powell & Market streets.

There are three cable car routes in operation. At Powell & Market streets, there is a cable car turntable which serves as the beginning stop for two lines, the Powell-Mason and Powell-Hyde lines. The Powell-Mason line begins at the Powell/Market turntable, located just three blocks from the Hilton, and the line runs from there up and over Nob Hill and down to Bay Street at Fisherman’s Wharf. The Powell-Hyde line also begins at the Powell Market turntable and runs over Nob and Russian hills before ending at Aquatic Park near Ghiradelli Square. Both these lines end near Fisherman’s Wharf, but at different areas, and the routes are significantly different. Paying close attention to the signs on the cable cars will help you distinguish where in Fisherman’s Wharf you will find yourself. The California Street line runs East-West from the Financial District, through Chinatown, over Nob Hill and stops at Van Ness Avenue. Since all the cars on this line have the same routes, the signs are painted directly on the car. The cable care fare is $5 each way (single ride on a single cable car) from 7 a.m. to 9 p.m. and $1 before 7 a.m. and after 9 p.m. Cable car tickets and an All-Day Passport ($11) are sold by the conductors on the cable cars. The conductors can make change for up to $20 but no transfers/fare receipts are accepted or issued.

PLENARY SESSIONS

OPENING SESSION PLENARY

Tuesday, April 17, 6:00 p.m. - 7:30 p.m.

Room: Continental Ballroom 4-6, Hilton, Ballroom Level

Opening Remarks: Kavita K. Pandit, AAG President; University of Georgia

Welcome and Introduction: Douglas Richardson, AAG Executive Director

Jared Diamond, Pulitzer Prize winning author of Guns, Germs and Steel and Collapse.

Jared Diamond has long enjoyed an international reputation for his work on ecology, biogeography, and more recently the role of geography in influencing human culture and society. In addition to his current best selling book Collapse: How Societies Choose to Fail or Succeed, he is also the author of the 1998 Pulitzer Prize winning book Guns, Germs and Steel: The Fates of Human Societies. An author of over 500 articles, 130 of which have appeared in Nature, Diamond has contributed more than 140 papers to ecology, geography, and history journals. He has also written almost 100 popular science pieces for Discover and Natural History.

Diamond has been on faculty in the University of California, Los Angeles (UCLA) Geography Department since 2002. Before his transfer to geography, he held an appointment for thirty-six years in the UCLA Medical School’s physiology department. Diamond received his undergraduate degree in biochemical sciences from Harvard (1958) and his PhD in physiology from Cambridge (1961).

In 1999, he was awarded the National Science Medal. Among other awards he has also been recipient of a MacArthur Foundation Fellowship, the Carr Medal, the Tyler Prize, and Japan’s Cosmos Prize. He has been elected to the National Academy of Sciences, the American Philosophical Society, and the American Academy of Arts and Sciences.

Diamond will be available following his keynote address for book signing.

This event received support from the Decade of Behavior Distinguished Lecture Program.
PLENARY SESSIONS

PRESIDENTIAL PLENARY

America’s Immigrants: New Geographies, New Debates

Wednesday, April 18, 5:00 p.m. - 6:30 p.m.

Room: Continental Ballroom 4-6, Hilton, Ballroom Level

Organized by: Kavita K. Pandit, AAG President; University of Georgia

Introduction: Kavita K. Pandit

Speakers:

W.A.V. Clark is a professor in the Department of Geography at the University of California, Los Angeles, and a member of the National Academy of Sciences and the American Academy of Arts and Sciences. His work focuses on the impacts of residential mobility and migration U.S. cities. Clark is the author of numerous books, most recently Immigrants and the American Dream: Remaking the Middle Class (Guilford, 2003).

Mark Ellis is a professor of geography and affiliate of the Center for Studies in Demography and Ecology at University of Washington, and a Guggenheim Fellow. His research interests center on migration, ethnicity, and local labor markets and his work investigates how assessments of the impacts of immigration in the United States are tied to immigrant geographies.

Anna Lee Saxenian is dean of the U.C. Berkeley School of Information and a professor in the Department of City and Regional Planning. She is has written extensively on the role of immigrant engineers in shaping Silicon Valley and other technology regions. Her most recent book is The New Argonauts: Regional Advantage in a Global Economy (Harvard University Press, 2006).

Rebecca Torres is an assistant professor of geography at East Carolina University with interests in rural development, tourism, and migration. She recently received a NSF CAREER Award to support her work on Latino transnational migration and settlement in the rural U.S. South, and to build an integrated program of research, education and outreach to the Latino community.
Richard Marston’s Past President’s Address will explore one of the greatest challenges facing mountain scientists: the need to separate environmental change due to human activities from change that would have occurred without human interference. Linking cause-and-effect is especially difficult in mountain regions where physical processes can operate at ferocious rates and ecosystems are sensitive to rapid degradation by climate change, resource development, and land use/land cover change. Pressure is increasing for resource development in mountains, home to 600 million people and the source of water for half of the world’s population. In addition, highland inhabitants are more vulnerable to natural hazards and political-economic marginalization than populations elsewhere.

This presentation will highlight three special insights that geographers offer to understanding human impacts on mountain landscape stability. First, modern techniques of measuring rates of geomorphic change help place the human factor in perspective and explain spatial variability of natural hazards. Second, scientists and policy-makers have come to realize that most problems require training, experience and expertise in understanding both physical and human systems. Our propensity for collaboration within our discipline and with practitioners from other disciplines serves geographers well for understanding the human impact in mountains. Third, the mixed methods and theories we employ…quantitative and qualitative, positivist science and critical theory, muddy boots field work linked with GIScience…together position geographers to resolve the debate over human triggered physical landscape change in mountains and explain the frequent disconnect between the findings of mountain science, policy making, and resource management.
Marston’s address will illustrate the complex feedbacks between biophysical and human phenomena as explored in the work of mountain scientists and geographers from around the world as well as from his own work in the Himalaya-Karakoram, the French Alps, the Rocky Mountains, and Coast ranges of Oregon and southeast Alaska. His central argument is that we must recognize the place-dependency of processes and therefore take care before extrapolating cause-effect relations from one place to another. Marston’s Past Presidential address ultimately seeks to raise the awareness of human-environmental interactions in the mountain regions and builds on the motto of the International Year of Mountains in 2002, “We are all mountain people.”

Banquet room doors are open to all members at 8:30 p.m. for this Address. We invite you to join us and enjoy the event with your colleagues, friends, and family. The AAG Banquet from 7:00 p.m. - 8:30 p.m. will precede the Past President’s Address. You may reserve a full banquet table for your department, AAG Specialty Group, students, or friends. Individual tickets are $75 and tickets for a table (seats ten) are $730. Tickets can be purchased at the AAG Registration Desk. The Past President’s Address at the conclusion of the banquet (at 8:30 p.m.) is open to all attendees at no charge.
PLENARY SESSIONS

AAG SPECIAL PLENARY

Geography and the Humanities: The Language of Landscape

Friday, April 20, 6:00 p.m. - 7:30 p.m.

Room: Continental Ballroom 4-6, Hilton, Ballroom Level

Welcome and Introductions: Douglas Richardson, AAG Executive Director

Chair: Dydia DeLyser, Louisiana State University

Speakers:

Rebecca Solnit, Writer
Barry Lopez, Writer

The AAG is pleased to announce that distinguished authors Rebecca Solnit and Barry Lopez will speak in a special plenary session, “The Language of Landscape,” on Friday, April 20, from 6:00 p.m. - 7:30 p.m.

Solnit is an exquisite writer whose style has been described as possessing “sinuous, romantic, incantatory rhythm” by the San Francisco Chronicle. Her books include the best-selling Wanderlust: A History of Walking, and River of Shadows: Eadweard Muybridge and the Technological Wild West. Other books include As Eve Said to the Serpent: On Landscape, Gender and Art and Hollow City: The Siege of San Francisco and the Crisis of American Urbanism. Solnit has been awarded both a Guggenheim Fellowship and a National Endowment for the Humanities Fellowship for Literature. She lives and works in San Francisco.

Barry Lopez is a writer known for his evocative portrayals of people living in close communication with nature. He often writes about the intricate relationships between culture and natural landscapes. Lopez received the National Book Award for Arctic Dreams: Imagination and Desire in a Northern Landscape. His books include the recent Home Ground: Language for an American Landscape, in which 45 poets and nature writers create more than 850 original definitions for geographic and landscape terms such as chattermark, punchbowl, swale, and monadnock.

The AAG is pleased to have these two wonderful writers on the same platform for this plenary session. The authors will entertain questions from the audience following their presentations, and also will be available for book signing after the session.

FEATURED SESSIONS

My Community, Our Earth: Global Collaborations in Geographic Learning for Sustainable Development

Tuesday, April 17, 12:00 p.m. - 1:40 p.m.
Room: Continental Ballroom 2, Hilton, Ballroom Level (Paper Session)

ORGANIZER(S): Association of American Geographers
CHAIR(S): Patricia Solís, AAG ; Matthew Koeppe, AAG

Presenters:
Patricia Solís, AAG
Fernando Echavarria, US Department of State
Anne Pollard, National Geographic Society
Drew Stephens, GIS Institute and Service at Sea
Kevin Scott, Pole to Pole Leadership Institute

Discussant: Eugene Fosnight, USGS

Session Description: The Goal of the My Community, Our Earth (MyCOE) program is to encourage students to use geographic methods for understanding and demonstrating how a sustainable development issue affects their community and environment. Since establishment in conjunction with the World Summit on Sustainable Development in 2001, more than 300 local projects in more than 100 countries have been conducted through global collaborations, drawing upon a worldwide mentor network of 500+ geography experts from more than 60 countries. Current MyCOE partnership activities and collaborations realize a strategic direction to target activities in specific regions geared toward highly impactful outcomes for participants and communities, undertaking activities that directly address the missions of partner organizations, responding to international agendas, such as the United Nations Millennium Development Goals, and continuing to build the MyCOE program as a broad, long-term resource for sustainable development activities and organizations around the world. This paper session describes the overall MyCOE partnership and various global collaborations in the Middle East, Southeast Asia, Central and South America, the Pacific, Africa, and elsewhere on sustainability topics ranging from biodiversity to geographic literacy to climate change and beyond. The partnership includes UNEP, AAG, ESRI, National Geographic, USDA, IDB, USAID, USGS, US Department of State, NOAA, and others.

My Community, Our Earth: Constellation Projects - Linking Research, Education, and Community Outreach

Tuesday, April 17, 2:00 p.m. - 3:40 p.m.
Room: Continental Ballroom 2, Hilton, Ballroom Level (Illustrated Paper Session)

ORGANIZER(S): Association of American Geographers
CHAIR(S): Patricia Solís, AAG ; Matthew Koeppe, AAG

Presenters:
Tasha Phillips, Community-Based Mapping for Sustainable Disaster
FEATURED SESSIONS

Jason M. Hatch and Kelley Thomas, Engaging Rural Youth in a Geographic Evaluation of the Impacts of Dam Removal on Sustainability in the Upper Klamath Basin, Oregon
Kristina Pearson, Protecting Indigenous Land in the Peruvian Amazon
Milagros J. González, Migratory Bird Predicted Habitat Maps
Students of Bjorn Sletto, Furthering University/Community Partnerships for Environmental Justice: Children’s Health and Safety in Low-income Neighborhoods in East Austin, Texas

Discussant: Adela Backiel, US Department of Agriculture

Session Description: Immediately following the paper panel, the My Community, Our Earth Partnership presents award recipients of its Constellation Grants program, providing support for student participation in community-based projects using geographic methods or technologies for sustainable development. Each project presented in the illustrated poster session was conducted by a constellation of undergraduate or graduate students, faculty, and extension personnel in land grant and/or sea grant universities.

Land Use and Watershed Processes: Transformation of Glacial, Oasis and Desert in the Heihe Watershed, Northwestern China
(Sponsored by Water Resources Specialty Group)

Wednesday, April 18, 8:00 a.m. - 9:40 a.m.
Room: Union Square 14, Hilton, 4th Floor (Paper Session)
ORGANIZER(S): Chansheng He, Western Michigan University
CHAIR(S): Chansheng He, Western Michigan University

8:00 *Chansheng He, Dr. Western Michigan University; Thomas E. Croley, Dr. - NOAA Great Lakes Environmental Research Laboratory, Understanding of Water Movement among Glacial, Oasis, and Desert in the inland Black River Watershed, Northwestern China
8:20 *Honglang Xiao, Dr. - Chinese Academy of Sciences, Integrated Water Resources Management at the Heihe River, Northwestern China.
8:40 *Yuanqing He, Dr. - Chinese Academy of Sciences; Wenxiong Jia - Chinese Academy of Sciences, Climatic and Glacial-Hydrological Features of the upper part of Heihe River Basin, Mts. Qilian
9:00 *Qi Feng, Dr. - Chinese Academy of Sciences; G.D. Cheng, Academician - Chinese Academy of Sciences, Trends of water resource development and utilization

Session Description: Water shortage is a serious problem in arid and semi-arid areas of Northwestern China. This session explores, presents, discusses, and exchanges the impacts of land use change on the mechanisms, processes, and transformations of glacial, oasis, and desert in a large inland watershed, the Heihe Watershed in Northwest China. Through this session, we hope to have a better understanding of water movement mechanisms in inland river watersheds and expand international collaborations with interested scholars.

Bill Wood Commemorative Session I: Frontiers in Geography and U.S. Foreign Policy.
(Sponsored by ESRI, Political Geography Specialty Group, Applied Geography Specialty Group)

Thursday, April 19, 8:00 a.m. - 9:40 a.m.
Room: Nikko 1, Hotel Nikko, 3rd Floor (Paper Session)

ORGANIZER(S): Lee R. Schwartz, U.S. Department of State
CHAIR(S): Lee R. Schwartz, U.S. Department of State
Introducer: Lee R. Schwartz

8:10 Leo Dillon*, U. S. Department of State, History and Current Activities of the Office of The Geographer in the U.S. Department of State.
8:40 Carmelle J. Terborgh, Ph.D.*, ESRI, A New Sense of Place - youth, sustainability, and geographic learning.

Session Description: The first of three sessions dedicated to the memory of the late William B. Wood, former State Department Geographer/Geographer of the United States. Presenters include both current members of this office and colleagues from other US government agencies with whom Bill worked closely. These sessions comprise part of a broader effort to publish a festschrift volume of commemorative essays organized according to themes of geographic research that reflect and honor Bill Wood’s lifetime work, achievements, and legacy and include initiatives and innovations inspired by Bill’s vision and leadership. The first session focuses on some of the historical and ongoing work done by the Office of the Geographer, as well as efforts undertaken by other agencies that with whom Bill worked closely.

- Lucile M. Jones, Seismologist, Multi-Hazards Coordinator for Southern California, USGS  
- Mark D. Myers, Director, USGS  
- Susan M. Wachter, Richard B. Worley Professor of Financial Management and Professor of Real Estate and Finance, The Wharton School, University of Pennsylvania  
- Carl D. Shapiro, Senior Advisor, USGS — Moderator

**Session Description**: Scientific information is a critical component in efforts to develop land management and mitigation strategies relating to natural hazards. However, the
existence of scientific information does not by itself ensure that better decisions will be made. This panel addresses the use of scientific information and the factors that affect its application in effectively reducing and managing risk.

This panel builds upon the results from two AAG events held during the past year. A panel at the 2006 AAG Annual Meeting in Chicago addressed “Vulnerability and Risk Analysis: Can a National Strategy be Developed?” The panel highlighted the concept of a national strategy and the need for developing a coherent research agenda. In November 2006, the AAG, The Wharton School of the University of Pennsylvania, and the USGS convened a “Roundtable on a National Framework for Risk Reduction and Management” in Washington, DC. The Roundtable brought together academic, business, and government leaders to advance a research agenda on improving decision-making to reduce and manage the risks of natural hazards — http://www.upenn.edu/penniur/risk.htm

This panel will address three broad goals discussed at the Washington Roundtable and the key topics that should be included in a research agenda. The three goals are:

· Enhancing the use of scientific information to reduce societal vulnerability and risk from hazards;
· Identifying how spatial data can most effectively enable and empower decision-making at the local, state, and national levels; and
· Addressing the alignment of incentives and predicted behavior at both the national and local levels to advance the public interest.

The William L. Garrison Award for Best Dissertation in Computational Geography

FEATURED SESSIONS

Friday, April 20, 2:00 p.m. - 5:40 p.m.
Room: Continental Ballroom 2, Hilton, Ballroom Level (Panel Session)

ORGANIZER(S): Mike Sfraga, University of Alaska
CHAIR(S): Mike Sfraga, University of Alaska

Welcoming Remarks: Douglas Richardson, AAG Executive Director
Introduction: Mike Sfraga

Speakers:
  Michael Sfraga, Director, University of Alaska Geography Program
  Mead Treadwell, Chairman, U.S. Arctic Research Commission, Senior Fellow, Institute of the North
  George Cannelos, Federal Co-Chair, Denali Commission (Alaska)
  Virgil “Buck” Sharpton, Vice Chancellor for Research and President’s Professor of Remote Sensing, University of Alaska Fairbanks
  Bernie Coakley, Associate Professor and Chair, Geology and Geophysics, University of Alaska Fairbanks
  Fay Korsmo, Senior Research Associate, Office of Polar Programs, National Science Foundation

Session Description: The 50th Anniversary of the International Geophysical Year (1957-1958) will be celebrated during the Fourth International Polar Year - 2007-2008. IPY research, education, outreach, and celebration activities will be implemented throughout the Polar Regions - with particular emphasis placed on the changing global climate and the impacts of such change on the environment and peoples in the Circumpolar North. This panel of US Arctic policy makers and scientists will discuss programs and research initiatives to be carried out during the International Polar Year.

Programs to be highlighted include: US Arctic policy and a new map of the Arctic; the science and politics regarding the ratification of the Law of the Sea Treaty; a new map of Alaska - America’s changing Arctic; Alaska’s rural communities - sustainability in the face of change; and the National Science Foundation and the International Polar Year - programs and initiatives.

AAG BUSINESS MEETING

The AAG’s annual Business Meeting will be held in Continental Ballroom 5 of the Hilton San Francisco on Saturday, April 21 from 2:00 p.m. - 3:00 p.m. AAG officers will present their annual reports. All are welcome to attend.

AAG REGIONAL FILM SERIES

Friday, April 20, 9:00 p.m. - 12:30 a.m.

Room: Continental Ballroom 5, Hilton

Organizer: Association of American Geographers

The Joy Luck Club (1993)

9:00 p.m. (139 minutes)

Based on a novel by Amy Tan, Wayne Wang’s drama follows four Chinese women — Suyuan (Kieu Chinh), Lindo (Tsai Chin), Ying Ying (France Nyuen) and An Mei (Lisa Liu) — who gather weekly to share stories and friendship. Interwoven with the travails of their daughters — June (Ming-Na Wen), Lena (Lauren Tom), Waverly (Tamlin Tomita) and Rose (Rosalind Chao) — are stories of the women’s own struggles for a better life.

Bullitt (1968)

10:30 p.m. (114 minutes)

Steve McQueen stars in this classic San Francisco action thriller. Frank Bullitt (McQueen) must baby-sit a gangster for 48 hours. When hit men snuff the witness, Bullitt won’t be stopped in his quest for vengeance. Bullitt earned cinematic immortality for a 100-mph car-chase sequence as two automobiles bottom out their shock absorbers roaring through San Francisco’s hills.

GEOGRAPHIC TECHNOLOGIES GALLERY
On Wednesday, April 18 at 7:00 p.m. (Yosemite B, Hilton) a select group of researchers from academia, government labs, and industry have been invited to demonstrate their latest, cutting-edge spatially-enabled technologies. The format will be simultaneous demos—a mix of science fair, test drive, and show-and-tell. This organic event will provide an opportunity to examine and discuss the technology and incubating ideas that will be impacting in coming weeks, months, and years, with the pioneering minds that are making them. We anticipate topics spanning virtual globes, open source mapping projects, internet GIS, environmental simulation and prediction, map mashups, and mobile spatial data collection. All AAG registrants are invited and welcome to attend.

OPENING EVENING EVENTS
Tuesday, April 17, 6:00 p.m. - 11:30 p.m.
Room: Continental Ballroom 4-6, Hilton
6:00 p.m. - 7:30 p.m. Opening Session Keynote Address by Jared Diamond. Welcoming remarks by Kavita K. Pandit, AAG President and Douglas Richardson, AAG Executive Director.

**USGS EXHIBIT DEMONSTRATIONS**

From Tuesday, April 17 to Friday, April 20 in booth #707 (during exhibit hall hours) conference attendees can learn more about USGS capabilities in geographic research, applied geography, and geospatial data. USGS geographic applications that address challenging issues for modern society and the natural world will be featured in scheduled demonstrations. USGS geographers will be on hand to provide a range of information from innovative uses of data from earth observing satellites to modeling the geography of risk to USGS science in support of the International Polar Year. USGS geographers will also be available to discuss advances in online access to geospatial data, including The National Map, and guide direct, hands-on geospatial and satellite data inquiries. Please stop by the booth for a demonstration schedule. Lively dialogue is encouraged.

**WALK ON THE WORLD: AN EXPERIENTIAL APPROACH TO GEOGRAPHIC EDUCATION**

Thursday evening from 7:00 p.m. - 9:00 p.m. (Continental Ballroom 7-9, Hilton), large-scale maps can become tools for broadening perspectives and understanding of global issues. A display of Defense Department maps, covering most of the land area of the earth at a scale of 1:500,000 (eight miles to the inch), will introduce conference participants to possibilities for scholarship, teaching, and deepening their personal understanding of the global issues. These maps can give a sense of “facts on the ground” in away that readings, photographs, and lectures cannot provide. Conference participants will be invited to kick off their shoes and explore an enormous (40' x 50') composite map of Eurasia and parts of the Americas, experimenting with a number of hands-on exercises. Participants will then engage in a “brainstorming” session exploring how to apply these maps to their own research and teaching needs. Organized by Paul W. Blank, Humboldt State University.

JOBS IN GEOGRAPHY (JIG)

Jobs in Geography Exhibit

Jobs in Geography (JIG) exhibit will be located in Grand Ballroom Salon A, located on the Grand Ballroom level of the Hilton San Francisco. The JIG sessions feature extensive information on careers in geography, professional development, and employment opportunities. The JIG exhibit will also feature numerous job postings in all fields of geography for students and job seekers. There will also be private interview rooms available to facilitate formal and informal job interviews, and special sessions and presentations on topics related to careers in geography.

The Jobs in Geography Center at the Annual Meeting will be open:
Wednesday, April 18, 9:30 a.m. - 4:30 p.m.
Thursday, April 19, 9:30 a.m. - 4:30 p.m.
Friday, April 20, 9:30 a.m. - 4:00 p.m.

Career and Professional Development Sessions at the AAG Annual Meeting

There are also many special sessions at the AAG Annual Meeting on careers in geography, professional development, and employment opportunities:

Support for International Geographers in U.S. Colleges and Universities I: Visa, Immigration, and Legal Issues (Session 2131)
Wednesday, April 18, from 8:00 a.m - 9:40 a.m
Room: Union Square 8, Hilton, 4th Floor

Support for International Geographers in U.S. Colleges and Universities II: Relations with Students and Colleagues (Session 2231)
Wednesday, April 18, from 10:00 a.m - 11:40 a.m
Room: Union Square 8, Hilton, 4th Floor

Jobs in Geography I: Career Opportunities and Challenges in Community Colleges and Universities (Session 2248)

WORKSHOPS

NOTE: Workshops are not included in the conference registration fee. Registration will be available on-site if space permits. All workshops will be held in the location specified in the description.

MONDAY, APRIL 16

Modern Stereoscopic Displays for Geographic Education
Monday, April 16, 1:00pm - 5:00pm
Organizers/Instructors: Terry A. Slocum, University of Kansas; Matthew D. Dunbar, University of Kansas; and Stephen L. Egbert, University of Kansas
Workshop Capacity: 20
Cost/person: $45 (includes refreshments)
Room: Franciscan A, Hilton, Ballroom Level

A wide range of topics related to modern stereoscopic displays will be covered, including the creation of stereo data (i.e. stereo photo pairs, stereo panoramic photos, stereo animations and 3D GIS data), sources of existing stereo data, software for manipulating stereo data (e.g., WallView, StereoPhoto Maker, StereoMovie Maker, and ArcGIS), and hardware for stereoscopic viewing. With respect to the latter, we will demonstrate an integrated system available from Cyviz (http://www.cyviz.com/). Participants will receive a notebook containing a variety of materials related to modern stereoscopic displays.

TUESDAY, APRIL 17

Hands on GPS Mapping
Tuesday, April 17, 8:00am – 12:00pm
Organizer/Instructor: Ashok Wadwani, Applied Field Data Systems, Inc.
Workshop Capacity: 20
Cost/person: $15
Room: Van Ness, Hilton, 6th Floor

The workshop will allow participants to use latest GPS MAPPING hardware (various brands of GPS receivers, Laser Range Finders, PDA's) and Field Data Collection software to collect actual data outdoors and finish a start to finish short project. Once the data is collected, it will be imported in GIS and results displayed on a background map. The purpose is to allow the participants to see
how easy it is to use the latest hardware and software and eliminate the "fear factor" of using latest technology.

**Geospatial Metadata: Introduction and Tips from the Field**
Tuesday, April 17, 8:00am – 12:00pm  
Organizer/Instructor: Theresa Mathiasmeier, USGS; Tom Sturm, USGS  
Workshop Capacity: 30  
Cost/person: $30 *(includes refreshments)*  
Room: Lombard, Hilton, 6th Floor

This introduction to the Federal Geographic Data Committee Content Standard for Digital Geospatial Metadata (CSDGM) is offered by USGS personnel with experience in the field of data management. Topics include an overview of the standard and profiles, identification of quality metadata vs. minimal metadata, and a review of the current suite of tools available. Exercises will focus on areas where the most common metadata errors occur.

**Analyzing Spatial Data with R**
Tuesday, April 17, 1:00pm – 4:00pm  
Organizer/Instructor: Roger Bivand, Economic Geography Section, Department of Economics, Norwegian School of Economics and Business Administration  
Workshop Capacity: 40  
Cost/person: $30 *(includes refreshments)*  
Room: Lombard, Hilton, 6th Floor

The workshop is for participants needing to use R, the leading open source statistical analysis environment, with spatial data. It will show how data can be imported, analyzed in one or more packages, displayed in graphical form, and perhaps exported from R. It will do this by introducing the foundation classes for spatial data provided in the *sp* package, and show how they make work with spatial data easier. The classes have shared interfaces to common file formats for spatial data, and a range of subsetting, plot, overlay, and sampling methods. Participants should bring a laptop.
WORKSHOPS

Accommodating Diverse Learning Styles in the Geography Classroom
Tuesday, April 17, 1:00pm – 4:00pm
Organizer/Instructor: Susan Wurtele, Trent University
Workshop Capacity: 30
Cost/person: $35 (includes refreshments)
Room: Van Ness, Hilton, 6th Floor

This workshop is intended for faculty members and advanced graduate students who wish to learn how to design an inclusive undergraduate classroom. The first part of the workshop will focus on identifying and integrating diverse learning styles, including learning disabilities, into the geography classroom. Strategies for adapting an undergraduate course using principles of Universal Instructional Design will be presented. Consideration will also be made of the impact that this teaching methodology can have for faculty and students. The last part of the workshop will focus on overcoming institutional obstacles faced when accommodating diverse learning styles in undergraduate geography courses.

WEDNESDAY, APRIL 18

Writing and Publishing Your Scholarly Book
Wednesday, April 18, 10:00am – 12:00pm
Organizer/Instructor: P. P. Karan, University of Kentucky; Stephen M. Wrinn, University Press of Kentucky; David Zurick, Eastern Kentucky University
Workshop Capacity: 25
Cost/person: $5
Room: Lombard, Hilton, 6th Floor

This workshop will guide participants through book writing and publishing processes. Experienced publisher from the University Press and book authors will offer “insider” perspectives on publishing scholarly books. This workshop is intended for younger faculty members and professional geographers interested in publishing their research in book form. Presentations will be followed by a question and answer period. There will be opportunity for potential authors to discuss their specific book projects with the publisher. Participants may bring their book proposals.
**WORKSHOPS**

**Wine Tasting Workshop: Vineyard Location and Sensory Perception of Zinfandel Wines**
Wednesday, April 18, 2:00pm – 5:00pm  
Organizer/Instructor: Percy H. Dougherty, Kutztown University; Kent Rosenblum, Winemaker, Rosenblum Cellers  
Workshop Capacity: 40  
Cost/person: $20  
Room: Monterey 1, Hotel Nikko, 3rd Floor

Zinfandel is the most distinctly California wine variety, going back to the California gold rush. Its long history is evidenced by descriptors of “old-vines” and “ancient-vines” on bottles and its nomination as the State grape. After a period of relative obscurity, Zinfandel is finding great acceptance today as both white Zinfandel and the traditional red variety. Great variation exists in its nose and taste depending on where it is produced. We will taste samples of red Zinfandel and show the impact of “terroir”, or elevation, topography, soil, microclimate, and other spatial attributes on these fruity, aromatic, full-bodied wines. Taste geography!

**NSF Workshop #1: Writing Proposals for NSF Geography and Regional Science Research Grants**
Wednesday, April 18, 10:00am – 11:30am  
Organizer/Instructor: Anne Chin, National Science Foundation; Thomas J. Baerwald, National Science Foundation  
Workshop Capacity: 40  
*This workshop is free of charge*  
Room: Van Ness, Hilton, 6th Floor

This is a workshop intended for faculty members and professional geographers (not graduate students) who engage in research in geography and regional science and wish to learn about how to prepare proposals for a research grant. Program officers from the Geography and Regional Science Program at the National Science Foundation discuss ways to improve the quality of a proposal and common fallacies to avoid in writing competitive grant proposals. Discussions will be followed by a question and answer period.
WORKSHOPS

Mapping and Spatial Analysis on the Web
Wednesday, April 18, 9:00am – 12:00pm
Organizer/Instructor: Ann Johnson, ESRI, Inc.; Joseph J. Kerski, ESRI, Inc.
Workshop Capacity: 15
Cost/person: $5
Room: 111 Mulford Hall – UC Berkeley (participants will need to bring money for BART tickets)

Today’s web mapping tools have become more than just online maps—they provide easy-to-use yet powerful ways to understand geographic issues and patterns from the local to global scale. Join ESRI Education staff as we use ArcWeb Explorer, ArcGIS Explorer, the National Atlas, and a host of useful online tools as an enhancement to GIS-based analysis. Included in the workshop are exercises that you can use to map and analyze your own data within the web-based applications. Participants will need to provide their own transportation to U.C. Berkeley for this workshop (BART recommended).

Expanding Your Spatial Analysis into 3D
Wednesday, April 18, 1:00pm – 4:00pm
Organizer/Instructor: Ann Johnson, ESRI, Inc.; Joseph J. Kerski, ESRI, Inc.
Workshop Capacity: 15
Cost/person: $5
Room: 111 Mulford Hall – UC Berkeley (participants will need to bring money for BART tickets)

Analyzing geographic phenomena in three dimensions is easier than ever. Join ESRI Education staff as we use ArcGIS Explorer, ModelBuilder, Spatial Analyst, and 3D Analyst on real-world problems to visualize and analyze spatial information to enhance your research and teaching. Use ArcGIS Explorer, ESRI’s new Virtual Globe software, to combine streaming data from the Internet with YOUR data for 3D visualization and inquiry. ModelBuilder can be used to help students understand geoprocessing workflows while Spatial and 3D Analyst are powerful extensions to ArcGIS desktop software that allows for seamless integration and analysis of different data formats in three dimensions. Participants will need to provide their own transportation to U.C. Berkeley for this workshop (BART recommended).
WORKSHOPS

THURSDAY, APRIL 19

Object-Based Image Analysis with Definiens Professional Software
Thursday, April 19, 1:00pm – 5:00pm
Organizer/Instructor: Maggi Kelly, University of California at Berkeley; Faith Kearns, University of California at Berkeley; Karin Tuxen, University of California at Berkeley; and Casey Cleve, University of California at Berkeley
Workshop Capacity: 15
Cost/person: $10 (participants will need to bring money for BART tickets)
Room: 111 Mulford Hall UC Berkeley

The ability to accurately map remotely-sensed images is important to the management of earth systems, in both natural and social sciences. This workshop will introduce participants to object-based image analysis (OBIA) using Definiens Professional software (version 5, formerly “eCognition”). During the first hour, participants will get a brief overview of remote sensing, followed by an in-depth focus on the software’s capabilities, using examples from land use/land cover change, urban planning, and natural resource management. In the remaining three hours, participants will receive hands-on experience using the software, and are encouraged to bring their own data to explore if time permits. This workshop will be hosted at the Geospatial Imaging & Informatics Facility on University of California, Berkeley (a Definiens Center of Excellence) and co-taught by the Facility and the Center for Fire Research & Outreach. Participants will need to provide their own transportation to U.C. Berkeley for this workshop (BART recommended).
WORKSHOPS

Change Detection and Automated Tie Point Generation with Imagery
Thursday, April 19, 10:00am – 11:30am
Organizer/Instructor: Danielle Kern, Leica Geosystems; Joseph Mostowy, Leica Geosystems
Workshop Capacity: 40
Cost/person: $5
Room: Lombard, Hilton, 6th Floor

Change detection is one of the most common uses of remotely sensed data. Although an easy concept to understand, results can suffer from complex issues such as poor image registration and radiometric differences. IMAGINE DeltaCue, along with IMAGINE AutoSync, simplifies the complexity of the change detection process and automatic image registration. IMAGINE DeltaCue contains tools for radiometric normalization and allows a user to define a land cover class of interest to monitor for changes. IMAGINE AutoSync takes two or more images from difference sources and automatically generates thousands of tie points to improve the registration or to orthorectify or reference new raw imagery to an existing image base.

Wine Tasting Workshop: Virtual Fieldtrip of Lodi’s Seven Appellations
Thursday, April 19, 3:00pm – 6:00pm
Organizer/Instructor: Percy H. Dougherty, Kutztown University; Mark Chandler, Lodi-Woodbridge Grapegrowers
Workshop Capacity: 60
Cost/person: $20
Room: Monterey 1, Hotel Nikko, 3rd Floor

Join Mark Chandler, Executive Director of the Lodi-Woodbridge Grapegrowers Association and award winning wine educator, as he leads us through a vicarious fieldtrip of the climate, landforms and soils of Lodi, California. This is one of the up and coming wine districts of California and is producing many exciting wines. Taste wines from the seven appellations of Lodi and determine for yourself how the physical geography of each region influences the wine and makes each region unique.

NSF Workshop #2: Writing Proposals for NSF Geography and Regional Science CAREER Grants
Thursday, April 19, 10:00am – 11:30am
Organizer/Instructor: Thomas J. Baerwald, National Science Foundation; Anne Chin, National Science Foundation
Workshop Capacity: 40
This workshop is free of charge
Room: Van Ness, Hilton, 6th Floor

This is a workshop intended for Geography and Regional Science faculty members at the Assistant Professor rank who are in tenure-track positions and wish to learn about how to prepare proposals for a CAREER Grant. Program officers from the Geography and Regional Science Program at the National Science Foundation discuss some of the rules associated with this particular grant, the “dos” and “don’ts” of writing a competitive proposal, followed by a question and answer period.

FRIDAY, APRIL 20

NSF Workshop #3: Writing Proposals for NSF Geography and Regional Science Research Grants
Friday, April 20, 10:00am – 11:30am
Organizer/Instructor: Thomas J. Baerwald, National Science Foundation; Anne Chin, National Science Foundation
Workshop Capacity: 40
This workshop is free of charge
Room: Van Ness, Hilton, 6th Floor

This is a workshop intended for faculty members and professional geographers (not graduate students) who engage in research in geography and regional science and wish to learn about how to prepare proposals for a research grant. Program officers from the Geography and Regional Science Program at the National Science Foundation discuss ways to improve the quality of a proposal and common fallacies to avoid in writing competitive grant proposals. Discussions will be followed by a question and answer period.
WORKSHOPS

An Introduction to GIS using XMap 5.0 GIS Editor
Friday, April 20, 2:00pm – 4:00pm
Organizer/Instructor: David McKittrick, DeLorme
Workshop Capacity: 40
Cost/person: $5
Room: Union Square 17, Hilton, 4th Floor

Traditionally GIS software requires an extensive period of training and education on how to use the technology before it can be applied in a productive capacity. This workshop will provide an opportunity for attendees to see the practical application of GIS in an accessible and understandable way. The program will cover basic data collection and creation, feature display and symbolization, simple analysis and querying tools, and data sharing including publishing of data layers to an interactive Web site.

SATURDAY, APRIL 21

Looking for Data
Saturday, April 21, 8:00am – 12:00pm
Organizer/Instructor: Brett Lien, LP DAAC; Scott Saxon, LP DAAC; Janice Wilson, LP DAAC
Workshop Capacity: 35
Cost/person: $5
Room: Lombard, Hilton, 6th Floor

User Services at the Land Processes Distributed Active Archive Center (LP DAAC) will host a presentation introducing our suite of remote sensing data products and services. The LP DAAC discussion begins with overviews of the Advanced Spaceborne Thermal Emission and Reflection Radiometer (ASTER) instrument on the Terra platform and the Moderate Resolution Imaging Spectroradiometer (MODIS) instruments on the Terra and Aqua platforms. Methods for locating, reviewing, and ordering these data through the LP DAAC interfaces will be presented. An overview covering the tools available for manipulating data format and projection, subsetting, data analysis, and quality assessment will conclude the workshop.
NSF Workshop #4: Writing Proposals for NSF Geography and Regional Science Dissertation Grants
Saturday, April 21, 10:00am – 11:30am
Organizer/Instructor: Anne Chin, National Science Foundation; Thomas J. Baerwald, National Science Foundation
Workshop Capacity: 40
This workshop is free of charge
Room: Van Ness, Hilton, 6th Floor

This is a workshop intended for doctoral students in Geography and Regional Science who wish to learn about how to prepare proposals for a Doctoral Dissertation Research Improvement (DDRI) Grant. DDRI grants may be requested for up to $12,000 to help doctoral candidates with their research needs. Program officers from the Geography and Regional Science Program at the National Science Foundation will discuss some of the “dos” and “don’ts” of writing a competitive proposal, followed by a question and answer period.

FIELD TRIPS

NOTE: Field trips are not included in the registration fee. If you wish to participate in any of the following you must register for the meeting and pay the additional fee. Registration will be available on-site if space permits.

ALL FIELD TRIPS WILL BEGIN AND END AT THE MAIN LOBBY, TAYLOR STREET ENTRANCE OF THE HILTON SAN FRANCISCO, UNLESS OTHERWISE NOTED IN DESCRIPTION.

SATURDAY, APRIL 14

Natural and Cultural Heritage from San Francisco Bay to Monterey Bay
Saturday, April 14, 9:00 am - Monday, April 16, 4:00pm
Organizers/Leaders: John Cusick, University of Hawai‘i; David Zurick, Eastern Kentucky University
Trip Capacity: 10
Cost/person: $335 (includes transportation, two-nights accommodations, handouts, no meals included)

Participants drive from San Francisco to Monterey along coastal Highway One and return via the Santa Cruz Mountains. The focus is on coastal and mountain protected areas and discussion topics include environmental history, natural and cultural heritage, protected area management, and ecotourism resources and impacts. Highlights include the elephant seal colony at Ano Nuevo State Reserve, whale watching in Monterey Bay National Marine Sanctuary, sea otter habitat at Point Lobos State Reserve, and old-growth forest at Big Basin Redwoods State Park. The trip allows one day for independent exploration by foot, bicycle, and public bus of Monterey and Carmel. Participants should bring at least $160 for meals.
FIELD TRIPS

SUNDAY, APRIL 15

Tracking Hydraulic Mining Sediment in the Sierra Foothills and Sacramento Valley
Sunday, April 15, 9:00am - Tuesday, April 17, 4:00pm
Organizers/Leaders: Allan James, University of South Carolina; Michael Singer, University of California at Santa Barbara; Rolf Aalto, University of Washington, Seattle
Trip Capacity: 30
Cost/person: $325 (includes transportation, two-nights accommodations, field guide, three box lunches, one dinner banquet, two afternoon wine receptions, snacks and drinks each day)

This trip will visit hydraulic gold-mine pits, locations along mountain rivers below the mines where deep gravel deposits continue to be reworked, sites in the Sacramento Valley where fine-grained deposits are exposed, and depositional areas in Sutter and Yolo Bypasses. We will visit mining areas in the Sierra foothills and concentrate on mine tailings there and in the Sacramento Valley. We will highlight linkages between episodic production of mine tailings, their reworking and deposition downstream, including in flood bypasses. Methods and some preliminary results of an on-going study that involves inventories and geochemical fingerprinting of historical sediment will be discussed. Some vigorous hiking will be undertaken up Greenhorn Creek on the first day; river shoes are recommended (sandals or canvas sneakers work well), and into upper Shady Creek on the second day where sturdy walking shoes or boots will be favorable. Participants should bring money for breakfasts and one dinner. For more information about this field trip and to view photos of the areas we will travel to, go to: http://people.cas.sc.edu/ajames/aag_trip/sedtrip.html.

MONDAY, APRIL 16

Sonoma County Wine Geography
Monday, April 16, 8:00am – 6:00pm
Organizers/Leaders: Bill Crowley, Sonoma State University; Larry Ford, San Diego State University
Trip Capacity: 34
Cost/person: $75 (includes transportation, entrance fees, handouts, box lunch, drinks)

Sonoma County possesses a diverse array of growing conditions represented by a dozen AVAs. The viticultural/oenological part of our journey will begin in the cooler southern Sonoma Valley/western Carneros AVAs, including a visit to Gloria Ferrer, principally a sparkling wine producer with extensive relatively flat valley floor plantings. From there we proceed northward to the warmer central Sonoma Valley through the village of Glen Ellen to Benziger Winery in the Sonoma Mountain AVA and a site of biodynamic farming practices with rolling to mountainous topography. After lunch we shall continue northwestward through the Sonoma Valley and the city of Santa Rosa to emerge in the Russian River AVA, a relatively cool region where Sonoma-Cutrer fashions Chardonnay wines from hillside vines. After our visit there we return to San Francisco on Highway 101. In addition to wine tastings the trip will include discussions of climate, soils, viticultural practices and AVA integrity.

Sierra Nevada Gold Country and Yosemite Valley: Evidence Constraining Sierran Uplift and Glaciation
Monday, April 16, 8:00am – 10:00pm
Organizer/Leader: Jeffrey P. Schaffer, Napa Valley College
Trip Capacity: 30
Cost/person: $70 (includes transportation, entrance fees, handouts, no meals included)

It is nearly universally believed that the Sierra Nevada experienced major uplift in the last few million years, causing rivers and then glaciers to create deep canyons. But no uplift has occurred in over 60 million years. Yosemite Valley is considered the prime example of a glacier-transformed canyon, but glaciers eroded very little and have deposited sediments in the valley, not deepened it. On this trip
to the gold mining towns of Jamestown and Columbia and to Yosemite Valley, we will examine a small amount of the total evidence contradicting the Sierran paradigm of major uplift and glacial erosion. Participants will receive the 388-page treatise by Mr. Jeffrey P. Schaffer, “The Geomorphic Evolution of the Yosemite Valley and Sierra Nevada Landscapes” and its sequel will be available gratis via e-mail. Participants should bring money for lunch and drinks.

**Channel, Lake and Tidal Restoration Challenges in the San Francisco Bay Area**
Monday, April 16, 9:00am – 5:00pm
Organizer/Leader: John Stamm, Jonathan Owens, Stacey Porter, Balance Hydrologics
Trip Capacity: 40
Cost/person: $55 *(includes transportation, box lunch/snacks, field guide/handouts)*

This one-day field trip will provide an overview of channel, lake, wetland and tidal restoration sites south of San Francisco. Issues and mitigation strategies that will be discussed include changes in reservoir levels, sediment storage in reservoirs, hydromodification of channels and restoration of channels, wetlands and salt ponds, as well as impacts from episodic events triggered by fires, floods and landslides. We plan to visit Crystal Springs Reservoir, Stanford’s Searsville Lake, Stevens Creek, Coyote Creek and Thompson Creek, and a tidal wetland restoration. These sites may be in their vernal splendor, verdant and wildflower-filled.

TUESDAY, APRIL 17

Consuming San Francisco: The Retail-Tourist-Entertainment Complex
Tuesday, April 17, 9:00am – 12:00pm
Organizer/Leader: Richard Walker, University of California at Berkeley
Trip Capacity: 20
Cost/person: $5 (includes walking tour)

Union Square is the heart of the San Francisco shopping district, as well as the hotel-convention nexus stretching down to Yerba Buena Center south of Market Street. Dotted around are the restaurants, museums and cultural institutions of the bourgeois high life. The city not only sells things to a national and international clientele, it sells itself — as a destination of urban charm, cosmopolitan delights, and trendy eating. It is one of the flagship cities of globalism, which means exploiting your own place in the world as much as importing from abroad. Of course, the indiscretions of the poor are never far away in dense cities, even as they are swept out of sight by a new Union Square Plaza, the Yerba Buena project, housing gentrification, and the photogenic Mayor’s Care-Not-Cash program.

Napa Valley Sea Kayaking and Wine Tasting
Tuesday, April 17, 9:00am – 5:00pm
Organizers/Leaders: Elizabeth Watson, University of California at Berkeley; Frances Malamud-Roam, University of California at Berkeley
Trip Capacity: 20
Cost/person: $165 (includes transportation, kayaking tour, admission fees, snacks/drinks)

Join the Bay Area Sea Kayakers and local geographers for a fun and informative paddle on the tidal sloughs of the Napa River. Equipment and instruction provided. You need not be an experienced kayaker, but bring a change of clothes and towel (just in case), a retaining strap for glasses or sunglasses, water, sunscreen, and a hat. After finishing the paddle, enjoy a brief driving tour of the Carneros winegrowing region of the Napa Valley, followed by a visit and tour of the Domaine Carneros winery and vineyards (some wine included). If time allows, we will stop at additional wineries enroute to San Francisco. Heavy rain cancels. Participants should bring money for lunch at a paddle-up restaurant.

Port of Oakland Tour
Tuesday, April 17, 9:30am – 12:30pm
Organizer/Leader: John Bowen, University of Wisconsin Oshkosh
Trip Capacity: 50
Cost/person: $20 (*includes transportation, admission fees, handouts, no meals included*)

The Port of Oakland is the fourth busiest in the US. It is a technological marvel and an engine of economic development. Yet the increase in transpacific trade has strained the port and the land transport systems to which it is linked. Expansion is complicated, moreover, by pressing environmental concerns. Meanwhile, Oakland faces fierce competition from other ports, especially the Los Angeles/Long Beach complex. During the field trip, participants will be briefed by a port representative and then tour the seaport facilities by bus and on foot. *Participants must carry a government-issued ID. Non-American participants must carry their passports.*

Wine Regions of Lodi: California’s Rising Star
Tuesday, April 17, 8:00am – 4:00/6:00pm
Organizer/Leader: Percy H. Dougherty, Kutztown University; Mark Chandler, Lodi-Woodbridge Grapegrowers
Trip Capacity: 50
Cost/person: $45 (*includes transportation, admission fees, refreshments*)

Move over Napa and Sonoma, here comes Lodi. Eighteen percent of California wine comes from Lodi, more than Napa and Sonoma combined. Known for power-packed “old-vines” Zinfandels, Lodi is expanding production, increasing quality and gaining prestige from its award winning wines. Lodi is a required side trip for wine aficionados visiting San Francisco. Nestled between San Francisco and the Sierra foothills, Lodi was recently divided into seven appellations based on elevation, climate, soils, and topography. The trip illustrates how Lodi differs from other wine producing districts and investigates inter-regional influences on the grape produced and the characteristics of the wine. Participants should bring money for lunch.
Cemeteries of San Francisco and Urban Morphogenesis
Tuesday, April 17, 8:00am – 12:00pm
Organizer/Leader: Lawrence R. Handley, USGS National Wetlands Research Center; Catherine M. Lockwood, Chadron State College
Trip Capacity: 50
Cost/person: $15 (includes transportation)

This field trip highlights cemeteries of San Francisco, historic and current locations. We will visit Mission Dolores, the vicinity of the University of San Francisco, and four cemeteries in Colma, a town of 500 live and nearly two million dead residents. We will examine the process of urban morphogenesis and its influence on cemetery development focusing on exclusion and segregation.

WEDNESDAY, APRIL 18

Genealogy and Geography: An Insider’s Tour of San Francisco’s Financial District
Wednesday, April 18, 9:00am – 12:00pm
Organizer/Leader: Richard Walker, University of California at Berkeley; Gray Brechin, University of California at Berkeley
Trip Capacity: 20
Cost/person: $5 (includes walking tour)

Cities — and especially their financial districts — are built by and for a close-knit set of elite families who profit from the exploitation of the urban hinterland. San Francisco’s leaders once envisioned the City-By-The-Golden-Gate as the coming Queen of the Pacific Basin, and they built accordingly. Geographer and architectural historian Gray Brechin has been walking the streets of San Francisco for the past forty years and will share his knowledge of the city’s layout, buildings, monuments, and artwork with fellow geographers. He will also discuss why a British documentary seldom, if ever, seen in the Bay Area is titled “The City That Waits to Die.” Bring your hardhats for a tour through the hi-rise jungle built on jell-o.

A Walk Along San Francisco’s Urban Waterfront
Wednesday, April 18, 9:00am – 12:30pm
Organizer/Leader: Jasper Rubin, San Francisco Planning Department
Trip Capacity: 20
Cost/person: $5 (includes walking tour, handouts)

Over the last 50 years, much of San Francisco’s waterfront has been transformed from an exotic and often dangerous place of work into a recreation and entertainment center that attracts visitors from around the world. Yet, its revitalization has been different from that of many older ports. Our walk will start in Fisherman’s Wharf and take us past finger piers, Telegraph Hill, the newly rehabilitated Ferry Building, and will end at the San Francisco Giant’s new ball park. Along the way we will delve into the history of the port, and the role of planning and local resistance in the evolution of this waterfront landscape. Participants should bring money for public transportation.

USGS Western Region Campus and San Andrea Fault Tour
Wednesday, April 18, 1:00pm – 6:00pm
Organizer/Leader: Mara Tongue, U.S. Geological Survey
Trip Capacity: 50
Cost/person: $20 (includes transportation, admission fees)

Enjoy an afternoon touring the U.S. Geological Survey campus in Menlo Park, south of San Francisco! The tour begins driving down Hwy 101 with discussions on invasive species and our understanding of processes that occur in complex estuaries. At the USGS campus, there will be a presentation on current geographic research conducted in the west. A tour of the campus will include discussions of USGS’ role in earthquake and volcano monitoring and research, visits to the Rock Magnetics Laboratory, Library, and Book/Map sales. The return trip will feature stops to view the San Andreas Fault and other geologic features.
FIELD TRIPS

Post-industrial “Renaissance” – Walking Tour of San Francisco’s Northeast Mission
Wednesday, April 18, 10:00am – 2:00pm
Organizer/Leader: Peter Cohen, San Francisco urban geographer
Trip Capacity: 20
Cost/person: $20 (includes walking tour, handout, box lunch, drinks)

The Mission district, celebrated for its rich immigrant history and in recent decades as the Latino cultural core of the city, is a complex and continually evolving neighborhood. In particular, the old manufacturing area in the northeast corner of the Mission has been rapidly morphing into a post-industrial mixed enclave of new and traditional activities. The landscape was influenced by the dot-com boom and the 1990s influx of loft-dwellers. Yet, a variety of light industrial businesses still thrive in this area. With its recent dramatic change, some see a “renaissance” of urban revitalization, while others see the loss of working class jobs and “gentrification.” It has become representative of clashes of class and culture in San Francisco. Participants should bring money for public transportation.

THURSDAY, APRIL 19

The Great Sand Waste: An Historical Look at Golden Gate Park
Thursday, April 19, 9:00am – 4:00pm
Organizer/Leader: Terence Young, California State Polytechnic University, Pomona; Gray Brechin, University of California at Berkeley
Trip Capacity: 40
Cost/person: $75 (includes transportation, admission fees, handouts, restaurant lunch)

Golden Gate Park is the earliest (1870) and best-known municipal park in the western US. Like similar parks created elsewhere, its “nature” was supposed to transform a flawed urban society into the good one. Ironically, public pressure forced the park’s managers to transform 700 of its 1000 acres from their original sand dunes into lawns, lakes and forests so that the landscape would appear like northeastern US woodlands. During subsequent decades, San Franciscans modified the place to be a restorative recreational spot, an ecological preserve, and a heritage site. We will visit a variety of the park’s most significant features in-
Including the recently renovated Conservatory of Flowers (America’s oldest), the Japanese Tea Garden (built for 1894’s Midwinter Fair), Stow Lake (artificial), the remaining coastal dunes and the Beach Chalet’s murals. We will eat lunch at the Beach Chalet Brewery and Restaurant along the Pacific Ocean. Guest leaders include historical geographer Gray Brechin, who will introduce us to WPA-era features, and art historian Ken Brown, who will lead us through the Tea Garden. Outdoor shoes and water are recommended.

**South Bay Salt Pond Restoration**

Thursday, April 19, 8:30am – 4:00pm
Organizers/Leaders: L. Jean Palmer-Moloney, East Carolina University; Dana Rogoff, SETI Institute
Trip Capacity: 40
Cost/person: $25 (*includes transportation, admission fees, no meals included*)

The South Bay Salt Pond Restoration Project is the most ambitious tidal restoration project on the West Coast of North America. Scientifically sound efforts that began in 2003 are well underway to restore a mosaic of functioning wetland habitats. Overseen cooperatively by the California Department of Fish and Game and the U.S. Fish and Wildlife Service the restoration will be managed for wildlife, flood management, and wildlife-oriented recreation. The South Bay Salt Pond Restoration is a model for future restoration efforts across the nation, especially in densely populated urban areas. Participants should wear comfortable walking shoes and bring jackets, sunscreen, sunglasses (or a hat/visor) and bring money for lunch/drinks.
**FIELD TRIPS**

**Stairways of San Francisco**
Thursday, April 19, 9:00am – 5:00pm
Organizers/Leaders: Bill Crowley, Sonoma State University; Larry Ford, San Diego State University
Trip Capacity: 22
Cost/person: $25 *(includes transportation, walking tour, handouts, snacks/drinks only)*

Many cities have public stairways, but San Francisco has over 400 of them and they provide an invigorating means of addressing the city. We will climb several hundred (a few thousand?) steps on over a half-dozen of these stairways in different parts of “The City.” (In the Bay Area, the general reference for San Francisco is “The City.”) For some residents a public stairway is their only means of ingress and egress to their homes. Garbage, groceries, furniture, and all else moves up and down the stairs. Many stairways function as urban green space and the grounds available are often tended by adjacent residents who sometimes form local associations for this purpose. Elegant ornamental constructions mark the entries to a few stairways, while the ascent of the majority of them provides urban landscape views that make all the huffing and puffing well worth the effort. Participants to bring money for lunch at a restaurant.

**“City Living Reinvented” – Walking Tour of San Francisco’s SoMa District**
Thursday, April 19, 10:00am – 2:00pm
Organizer/Leader: Peter Cohen, San Francisco urban geographer
Trip Capacity: 20
Cost/person: $20 *(includes walking tour, handout, box lunch, drinks)*

First as Yerba Buena Cove, then Happy Valley, Tar Flat, South of the Slot, Skid Row, Transbay, Multimedia Gulch, and now simply “SoMa,” the city’s south of market district has had a colorful and checkered history. It isn’t embellished with the same romantic mythology that distinguishes San Francisco’s more famous districts north of Market Street. But history may some day be turned on its head, as SOMA is currently the most rapidly changing part of the city, and its new reincarnation will surely have a profound influence on San Francisco’s future history. From the Yerba Buena Redevelopment Area, to condo towers on Rincon Hill, to the South Park apex of the dot-com boom, to the SF Giants Ballpark on the city’s postindustrial waterfront, we’ll navigate through this transforming landscape. Participants should bring $1.50 (exact change) for a MUNI Metro ride.
FIELD TRIPS

Mocha Java Geography: Chocolate & Coffee Production in the Bay Area
Thursday, April 19, 1:00pm – 6:30pm (est.)
Organizer/Leader: Julie Cidell, California State University at San Bernardino
Trip Capacity: 20
Cost/person: $45 (includes transportation, admission fees, handouts)

Coffee and chocolate are central to the cultural, economic, and historical landscapes of the Bay Area. On this field trip, we will visit some of the sites of production (and consumption!) of these two edibles. We begin with the Javawalk tour, exploring the role of coffeehouses in constructing San Francisco’s culture in neighborhoods such as Chinatown and North Beach. We then travel across the bay to Scharffen Berger, the only chocolate manufacturer in the Bay Area who allows public tours of its manufacturing facilities. We will also hear about Ghirardelli Square, one of the first successful adaptive urban reuse projects in the U.S.

Downtown Walking Tour – The Continuing Evolution of Downtown San Francisco
Thursday, April 19, 1:00pm – 2:30pm
Organizer/Leader: Joshua Switzky, San Francisco Planning Dept.; Vandana Wadhwa, University of Akron
Trip Capacity: 40
Cost/person: $5 (includes walking tour, admission fees)

This walking tour will focus on the transformation of downtown San Francisco’s southern side and adjacent neighborhoods south of Market Street. This area was identified in the 1985 Downtown Plan as the future expansion area of the renowned Financial District, and is beginning to mature and shift the Downtown’s center of gravity south of Market Street. Major public infrastructure projects, such as the tearing down of the Embarcadero Freeway and building of a new multi-modal Transit Center are central to its transformation and growth. Highlights of the walk include Market Street, Yerba Buena area, Transbay Terminal, Ferry Building, the Embarcadero, and Rincon Hill/Transbay redevelopment area.
FIELD TRIPS

**Ritual Movement and Sacred Space: The Labyrinths of Grace Cathedral**
Thursday, April 19, 12:15pm – 2:45pm
Organizer/Leader: Joy W. Ackerman, Antioch University New England
Trip Capacity: 12
Cost/person: $10 *(includes walking tour, tour guide, handouts)*

Labyrinths are ancient patterns inscribed in the landscape for ritual use. The resurgence of interest in the ancient form and practice of the labyrinth provides an opportunity to explore the intersections of landscape and ritual, of movement and sacred space. The outdoor and indoor labyrinths of Grace Cathedral will be the focus of this trip, during which participants will have the opportunity to observe public use of these structures, participate in their own meditation walk, and discuss research approaches to sacred space.

**FRIDAY, APRIL 20**

**San Francisco Coastal Biogeography: Golden Gate to Point Reyes**
Friday, April 20, 8:00am – 6:00pm
Organizers/Leaders: Barbara Holzman, San Francisco State University; Liam Reidy, University of California at Berkeley
Trip Capacity: 30
Cost/person: $70 *(includes transportation, admission fees, handouts, box lunch, snacks/drinks)*

Explore the ecological richness of the San Francisco Bay Coastal Landscape. Witness the spectacular display of wildflowers that a mild El Niño can bring, and share in our amazement and appreciation for this unique and special place. This all day field trip will explore the Biogeography of the coast. From restored tidal wetlands of the San Francisco Presidio’s Crissy Field to the world’s tallest trees in Muir Woods, through the nesting grounds of egrets and herons at Audubon Canyon Ranch, Bolinas Lagoon and the wonders of Point Reyes National Seashore, this trip is sure to amaze and exhaust you. We will explore a variety of unique flora, fauna, geology and cultural history. Bring your binoculars for views of nesting birds, harbor seal pups and a possible glimpse of gray whales on their northward migration. Trip stops are subject to change due to inclement weather or accessibility difficulties.
FIELD TRIPS

The Politics of Mobility and the Contestation of Urban Space in San Francisco: A Walking Tour of the Freeway Revolt
Friday, April 20, 1:00pm – 5:30pm
Organizer/Leader: Jason Henderson, San Francisco State University
Trip Capacity: 20
Cost/person: $5 \textit{(includes walking tour, handouts)}

This walking tour will take place one mile from the conference, in an area called “Market-Octavia.” The tour begins with a presentation from activists and planners involved in San Francisco’s transportation debates, focusing on the recent debate about replacing freeways with urban spaces emphasizing pedestrians, bicycles and higher density, mixed use development. We will walk the length of the Central Freeway and Octavia Boulevard replacement project, ending in a new public park situated where a freeway once stood. The tour will include observations about ongoing planning debates in the neighborhood, with an emphasis on contentious debates about the spaces of auto mobility and parking. Participants should bring money for public transportation.

On the Border with Nature: Exploring San Bruno Mountain
Friday, April 20, 1:00pm – 5:00pm
Organizers/Leaders: Monique Nakagawa, PRI/San Francisco State University; Ken McIntyre, San Bruno Mountain Watch
Trip Capacity: 20
Cost/person: $30 \textit{(includes transportation, handouts)}

San Bruno Mountain, the largest urban open space in the country, is the last fragment of the Franciscan bioregion which once spanned the northern peninsula. The mountain shelters a number of rare and endangered species, including 3 butterflies and at least 15 plants, as well as other wild animals rarely found so close to cities. The mountain is also the site of a Habitat Conservation Plan (HCP) which was the test case for the Endangered Species Act’s controversial 1982 “incidental take” amendment. On this trip, we will explore San Bruno Mountain’s remarkable biodiversity, as well as the legacy of the precedent-setting HCP. Bring water; wear sturdy shoes, long pants, layered clothing; and prepare for rain.
Conservation Biogeography of San Francisco Peninsula Natives and Endemics
Friday, April 20, 8:30am – 1:45pm
Organizer/Leader: Don L. Hankins, California State University at Chico; Michelle Degmetich, California State University at Chico
Trip Capacity: 50
Cost/person: $20 (includes transportation, handouts, snacks/drinks)

When resource conservation conflicts with societal needs, creative approaches are needed to achieve conservation. During our fieldtrip we will visit three coastal sites on the urban fringe (Milagra Ridge, Mori Point, and the Presidio of San Francisco), which support rare native and endemic species of the San Francisco Peninsula. At these sites we will observe and discuss ongoing conservation activities. Unique to these sites is the role of local communities in conserving the land and organisms that live there. Boots, layered clothing, and binoculars are encouraged. Participants should bring lunch.

SATURDAY, APRIL 22

Farallon Islands Natural History Trip with Dr. Ellen Hines
Saturday, April 21, 7:00am – 5:00pm
Organizer/Leader: Birgit Winning, Oceanic Society
Trip Capacity: 35
Cost/person: $100 (includes boat tour, speaker honoraria, no meals included)

The Farallon Islands, just 27 miles off San Francisco, lie amid the Gulf of the Farallones National Marine Sanctuary, a food-rich marine ecosystem which attracts whales, dolphins, seals and seabirds each spring, summer and fall, to feed and to breed. Twenty-three species of marine mammals, including 18 species of whales and dolphins, can be found here. The Farallon Islands National Wildlife Refuge is the largest seabird rookery in the contiguous United States with nesting Tufted Puffins, Pigeon Guillems, Rhinoceros Auklets, Shearwaters, and other species. Island beaches are covered with sea lions, including massive Steller’s sea lions, now on the Endangered Species List. This 8-hour nature cruise aboard motorized offshore will circumnavigate the islands for wildlife view-

ing and approach the Continental Shelf for marine mammal observation. Wear warm, layered clothing with water-proof outerwear (because of sea spray). Participants should bring lunch and beverages (none will be available for purchase) and will need to transport themselves to the San Francisco Yacht Harbor/Marina Green just outside the Harbormaster’s office - check in time is 7:30am, the boat departs at 8:00am and returns at 4:00pm. Trips go rain or shine!

Coastal, Fluvial and Hillslope Geomorphic Systems of San Mateo County: Human Impacts and Hazards
Saturday, April 21, 9:00am – 5:00pm
Organizers/Leaders: Jerry Davis, San Francisco State University
Trip Capacity: 20
Cost/person: $35 (includes transportation, handout, snacks/drinks)

Visits to coastal, fluvial and hillslope sites in northern San Mateo County, focusing on sites of significant human impacts, geomorphic hazards and biogeomorphic restoration. Coastal sites: Ocean Beach, San Francisco; Mussell Rock at San Andreas Fault, Daly City; various Pacifica beaches. Many homes have been lost due to cliff erosion along this stretch of coastline. Hillslope sites include a colluvial hollow in Pacifica that produced a fatal debris flow in 1982. Fluvial sites along San Pedro Creek, including three restoration sites designed to remove anadromous steelhead migration barriers in addition to flood protection. Participants should bring money for a deli lunch.

Join The AAG next year in Boston, Massachusetts, one of America’s oldest cities, with a rich economic and social history. What began as a homesteading community eventually evolved into a center for social and political change. Boston has since become the economic and cultural hub of New England.

As the region’s hub, Boston is home to nearly 590,000 residents, many institutions of higher education, some of the world’s finest inpatient hospitals, and numerous cultural and professional sports organizations. Millions of people visit Boston to take in its historic neighborhoods, attend cultural or sporting events, and conduct business.

Attendees can travel to Boston with ease from around the world. Logan International Airport (BOS), New England’s busiest and largest airport, is currently served by 45 are scheduled airlines, including 16 foreign flag carriers. BOS has domestic service to 76 destinations and international service to 33 destinations.

Don’t miss the chance to visit one of America’s most historic cities. We look forward to seeing you there!

INSTRUCTIONS TO
SESSION CHAIRS

1. Adhere rigorously to the times printed in the program. Each session presentation is assigned a specific time. If you have a no-show, use his or her time for a discussion of the preceding paper(s) or for a recess. Do not shift later papers into such voids. That is unfair to attendees who plan to hear a particular presentation.

2. Consult the program addenda for cancellations in your session. Paper withdrawals are noted in the daily bulletin. Plan how you will use any free time for the benefit of the session.

3. Hold each individual to the time allotted. You will be given four signal sheets to alert each speaker to the time remaining (10 minutes, 5 minutes, 2 minutes, and 1 minute). If a speaker continues after time has expired, rise, ask those present to join you in thanking the speaker, and announce the next presentation. Be polite but implacable. The audience and other speakers will respect and support strong direction on your part.

4. Note the location of the nearest house phone. Should a medical emergency or problem with room lighting, temperature, etc. arise, the house phone will connect you to the hotel and assistance will be provided. Secondly, should a problem arise with any audiovisual equipment, contact a Conference Assistant or AAG Staff member for assistance. A Conference Assistant will check on your session occasionally and may help you summon assistance, but you should be prepared to do so independently. Conference Assistants are not trained or authorized to operate or repair audiovisual equipment.
AAG’s sessions are all numbered with a 4-digit code. The numbers represent the following information:

First digit = day
Second digit = time period
Last two digits = room code

Key to days (first digit) is as follows: Tuesday = 1; Wednesday = 2; Thursday = 3; Friday = 4; Saturday = 5.

Below are the keys to time slots:

Introducer: John A. Cross

Panelists: Jerry T. Mitchell, U of South Carolina; Ron R. Hagelman, Texas State U; Philip L. Chaney, Auburn U; Sarah Jean Halvorson, U of Montana
1350. Biophysical Remote Sensing I (Sponsored by Remote Sensing Specialty Group)
Room: Mason A, Hilton, 6th Floor (Paper Session)
ORGANIZER(S): Cuizhen Wang, U of Missouri; Shunlin Liang, U of Maryland
CHAIR(S): Cuizhen Wang, U of Missouri
12:00 Shunlin Liang*, U of Maryland; Tao Zheng, U of Maryland; Kaicun Wang, U of Maryland; Hye-yun Kim, U of Maryland; Dongdong Wang, U of Maryland; John Townshend, U of Maryland; Steve Running, U of Montana; Si-Chee Tsay, NASA, Mapping high-resolution surface radiation budget from satellite observations.
12:20 Fei Yuan*, Minnesota State University, Mankato; Shouraseni Sen Roy, U of Miami, Analysis of Phenological Change Patterns and Growing Season Trends in Response to Climatic Variables and Urbanization.
12:40 Erick Sanchez Flores*, U of Arizona, Universidad Autónoma de Ciudad Juárez; Hugo Rodriguez Gallegos, U of Arizona; Steve Yool, U of Arizona, Landscape dynamic and vulnerability to invasion. Integrated spatial modeling for plant invasion assessment in desert ecosystems.
1:00 Qi Chen*, U of California, Berkeley; Michael Lefsky, Colorado State U; Peng Gong, U of California, Berkeley; Dennis Baldocchi, U of California, Berkeley, Validation of Canopy Height Estimation Derived from ICESat GLAS Data with Discrete-return Airborne LIDAR Data.
1:20 Cuizhen Wang*, U of Missouri; Bo Zhou, U of Missouri; Harlan L. Palm, U of Missouri, Detecting Invasive Sericea Lespedeza (Lespedeza cuneata) in Mid-Missouri with hyperspectral data.

1351. Climate Change and Vegetation I (Sponsored by Biogeography Specialty Group)
Room: Mason B, Hilton, 6th Floor (Paper Session)
ORGANIZER(S): David Goldblum, Northern Illinois U
CHAIR(S): David Goldblum, Northern Illinois U
12:00 Lesley Rigg*, Northern Illinois U, Projected population transitions for sugar maple under different climate change scenarios.
1:00 Kristin L Mercer*, Ohio State U; Hugo Perales, El Colegio de la Frontera Sur, Maize landraces: Current distribution and local adaptation to environmental gradients.
1:20 David Goldblum*, Northern Illinois U, Sensitivity of corn and soybean yield in Illinois to air temperature, precipitation, and climate change.
1352. Globalization, City-Regions and Polycentricity I 
Room: Powell A, Hilton, 6th Floor (Paper Session) 
ORGANIZER(S): Michael Hoyler, Loughborough U; Martin Sokol 
CHAIR(S): Michael Hoyler, Loughborough U 
12:00 Robert C. Kloosterman, U of Amsterdam; Bart Lambregts*, U of Amsterdam, 
12:40 Thomas Joseph Vicino, PhD*, U of Texas-Arlington, Megalopolis 50 Years On: The Transformation of a Globalizing City Region. 
1:00 Alain Thierstein*, Munich U of Technology, The changing value chain of the knowledge economy. Spatial impact of intra-firm and inter-firm networks within the Mega-City Region of Zurich. 
1:20 Arie Romein*, OTB Research Institute, U of Technology Delft, Netherlands; Otto Verkoren, Department of Geography, Utrecht U, Netherlands, Polycentricity as a Context Dependent Concept: the Case of Latin-American Metropolitan Areas. 

1353. Regional Identities: Western Cultures 
Room: Powell B, Hilton, 6th Floor (Paper Session) 
ORGANIZER(S): Program Committee 
CHAIR(S): Jacob Sowers, Kansas State U 
12:00 David C. Viertel*, Texas State U-San Marcos, Remember the Alamo: Reproduction of Regional Identity Through Iconographic Form. 
1:00 Jacob Sowers*, Kansas State U, Desert But Not Deserted.

1354. Geographic education: active learning and assessment in cultural, environmental, and techniques subfields, I (Sponsored by Geography Education Specialty Group) 
Room: Sutter A, Hilton, 6th Floor (Paper Session) 
ORGANIZER(S): Delphis Levia, U of Delaware; Robert S. Bednarz, Texas A&M U 
CHAIR(S): Robert S. Bednarz, Texas A&M U 
Introducer: Robert S. Bednarz 
12:03 Matthew Bampton*, U of Southern Maine; Cathleen McAnneny, U of Maine, Farmington, Measuring Conceptual Understanding in Undergraduate GIS Education: Developing an Instrument and Creating a Baseline. 
1:03 Meredith Beilfuss*, Indiana State U; James H. Speer, Indiana State U, Undergraduate Students Perceptions of Fieldwork Preparedness. 
Discussant(s): Robert S. Bednarz, Texas A&M U
1355. Mapping the Past: reconstructing early American settlement patterns (Sponsored by Historical Geography Specialty Group, Electronic Cultural Atlas Initiative, Geographic Information Science and Systems Specialty Group)

Room: Sutter B, Hilton, 6th Floor (Paper Session)

ORGANIZER(S): Mary Ruane, U of North Carolina - Chapel Hill; Ian N. Gregory, Lancaster U

CHAIR(S): Caverlee Cary, U of California, Berkeley

12:00 G. Rebecca Dobbs*, Emporia State U, Archival Data to Geographic Knowledge: Reconstructing the Colonial Settlement Landscape in the North Carolina Backcountry.

12:40 Mary Ruane, MSISl*, U of North Carolina - Chapel Hill, Mapping the Past: interdisciplinary opportunities for reconstructing early American settlement patterns.

Discussant(s): James W. Wilson, Old Dominion U

1356. Applied Geographic Research (Sponsored by Geographic Information Science and Systems Specialty Group, Applied Geography Specialty Group, Transportation Geography Specialty Group)

Room: Taylor A, Hilton, 6th Floor (Panel Session)

ORGANIZER(S): Barry Wellar, Wellar Consulting

CHAIR(S): Barry Wellar, Wellar Consulting

Introducer: Barry Wellar

Panelists: Michael N. DeMers, New Mexico State U; Barry Wellar, Wellar Consulting; Nancy K. Torrieri, U.S. Bureau of the Census; Lalita Sen, Texas Southern Univ; Robert J. Czerniak

1357. Rural Dynamics in North America - Past, Present, and Future (Sponsored by Rural Geography Specialty Group, Population Specialty Group)

Room: Taylor B, Hilton, 6th Floor (Paper Session)

ORGANIZER(S): Peter B. Nelson, Middlebury College; Alexander C. Vias, U of Connecticut

CHAIR(S): John Cromartie, USDA

12:00 Peter B. Nelson*, Middlebury College, Baby boomer migration and rural community change: reflections from the field.

1:00 Karen Speirs*, University of Connecticut Department of Geography, Population Incentives of Rural Areas.

1:20 Margaret D. Foraker*, Salisbury U, Labor and Amenity Migration to the Delmarva Peninsula.
1365. Middle East - Environments
Room: Mendocino 1, Hotel Nikko, 2nd Floor (Paper Session)
ORGANIZER(S): Program Committee
CHAIR(S): Unna I. Lassiter, California State U Long Beach
12:00 John E. Oliver*, Indiana State U, Climatic Change in the Middle East: Impacts.
12:40 Alpan Risvanoglu*, U of Oklahoma, Green Spaces in Istanbul.
1:00 Michael J. Levengood*, U of Georgia, Designing green space for a crowded Cairo: Al-Azhar Park.
1:20 Unna I. Lassiter, PhD*, California State U Long Beach, Creating a new place for animals in Iran.

1366. Remote Sensing of the Environment
Room: Mendocino 2, Hotel Nikko, 2nd Floor (Paper Session)
ORGANIZER(S): Program Committee
CHAIR(S): Rian Bogle, United States Geological Survey
12:00 Hua Liu*, Indiana State U; Qihao Weng, Indiana State U, Scaling-up Effect on Examination of Seasonal Variations in the Relationship between Landscape Pattern and Land Surface Temperature in Indianapolis, U.S.A..
12:20 Lisa M Kuchy*, Department of Geography, U of North Dakota, Grand Forks, ND 58202; Bradley C Rundquist, Department of Geography, U of North Dakota, Grand Forks, ND 58202; Santhosh K Seelan, Department of Space Studies, U of North Dakota, Grand Forks, ND, 58202; Rajiv Nigam, National Institute of Oceanography, Dona Paula, Goa, India, Remote Sensing-based Study of Land-Cover Changes Related to Mining and its Impacts on Marine Fauna: A Case Study in Goa, India.
12:40 Jesse Ryan Rozelle, Undergraduate Student*, U of Colorado at Denver; Rafael Moreno, Assistant Professor, U of Colorado at Denver; Adam Lee Rowan, Web Programmer, Classic Glass, Building a Web-based Spatial Information System for the Forests in Armenia Using Open Source Software.
1:00 Thao Nguyen*, Department of Geography, U of Southern California; Travis Longcore, Department of Geography, U of Southern California; John P. Wilson, Department of Geography, U of Southern California, Green does not mean ecologically vibrant in a Mediterranean climate.
1367. Urban Environments, Urban Policy  
Room: Nikko 1, Hotel Nikko, 3rd Floor (Paper Session)  
ORGANIZER(S): Program Committee  
CHAIR(S): Allan Cochrane, OPEN U  
12:00 Michael Hodson*, SURF Centre; Simon Marvin, SURF Centre, Urban Transitions to Low Carbon Futures: Cities and Corporates Building New Political ‘Spaces’ for ‘National By-Pass’.  
1:00 Matthieu Permentier*, Utrecht U; Gideon Bolt, Utrecht U; Maarten van Ham, U of St. Andrews, Neighbourhood reputations: differences and similarities between internal and external reputations.  
1:20 Allan Cochrane*, OPEN U, Trying to define urban policy: exploring the meaning of a ‘chaotic conception’.

1368. New Directions in Critical Geopolitics: Part 1  
Room: Nikko 2, Hotel Nikko, 3rd Floor (Paper Session)  
ORGANIZER(S): Laura Jones, U of Wales Aberystwyth; Daniel Sage  
CHAIR(S): Emily Gilbert, U of Toronto  
12:00 Daniel Sage*, U of Wales, Aberystwyth; Laura Jones*, U of Wales Aberystwyth, Introducing New Directions in Critical Geopolitics.  
1:00 Deborah P Dixon*, IGES, U of Wales-Aberystwyth, Frogs in Space.  

1369. Scandinavian Lands  
Room: Nikko 3, Hotel Nikko, 3rd Floor (Paper Session)  
ORGANIZER(S): Program Committee  
CHAIR(S): Olof Stjernström, Umeå U  
12:00 Madeleine Eriksson*, Umeå U, Department of Social and Economic Geography, “People In Stockholm Are Smarter Than Countryside Folks”.

3:20 William Lindeke*, U of Minnesota, Screening the City: TV, Mediation, and Public Space.

1404. Latin America: Colombian and Covert Geographies

Room: Continental Ballroom 4, Hilton, Ballroom Level (Paper Session)

ORGANIZER(S): Program Committee

CHAIR(S): Mark Bonta, Delta State U
2:00 Adriana Elisa Adriana Elisa*, Graduate Geography Group, U of California Davis, Place-based Identity Building in Colombia.
2:40 Zane Austin Grant, M.A.*, U of Arizona, Autonomous Force and State Power in Bogotá, Colombia.
3:00 SHANNON S LAMB*, Delta State U, The Landscapes of Public Memory Suppression.
3:20 Mark Bonta*, Delta State U, Covert Geographies?.

1405. New Geographies of Mexico

Room: Continental Ballroom 5, Hilton, Ballroom Level (Paper Session)

ORGANIZER(S): Program Committee

CHAIR(S): Ramin Zamanian, Louisiana State U
2:20 M. Basilia Valenzuela*, Universidad De Guadalajara; Maria Luisa Garcia Batiz, Universidad de Guadalajara, Location, Location and Information: the geography of social interests on the impacts of big infrastructure projects.
2:40 Basilio Verduzco-Chavez*, Universidad De Guadalajara; Antonio Sanchez-Bernal, Universidad de Guadalajara, Small Town, Big Project: the changing face of a community hosting the construction of a hydroelectric power plant.
3:00 Ramin D. Zamanian*, Department of Geography and Anthropology, Louisiana State U, A Material/Conceptual Landscape Analysis of the Virgin of Guadalupe Pilgrimage Site in Mexico City, Mexico.
1406. Environment, Population and Land Use
Room: Continental Ballroom 6, Hilton, Ballroom Level (Paper Session)
ORGANIZER(S): Program Committee
CHAIR(S): Kathryn Ziewitz, Florida State U
2:00 Marcellus Caldas*, Michigan State U; Cynthia Simmons, Dr., Michigan State U; Robert Walker, Professor, Michigan State U; Stephen Aldrich, Mr., Michigan State U, Land Reform and Spontaneous Settlement Formation in the Brazilian Amazon.
2:40 Caroline Upton*, U of Leicester, Poverty and Participation: New Development Initiatives in Mongolia’s Pastoral Sector.
3:00 Wei Tu*, Georgia Southern U, Integrating System Dynamics Modeling into Plan Level Strategic Environmental Assessment: The case of Shanghai.

1407. Location Analysis and Spatial Modeling (Sponsored by Spatial Analysis and Modeling Specialty Group)
Room: Continental Ballroom 7, Hilton, Ballroom Level (Paper Session)
ORGANIZER(S): Mark W. Horner, Florida State U
CHAIR(S): Mark W. Horner, Florida State U
2:00 Eric Delmelle*, U of Idaho; Alan Murray, The Ohio State U, Spatial Sampling and Location Modeling.
2:40 Myung Jin Kim*, Department of Geography, The Ohio State University; Ningchuan Xiao, Department of Geography, The Ohio State U, A network flow-based optimization approach to political redistricting problems.
3:00 Serge Rey, San Diego State U; Xinyue Ye*, San Diego State U/UC-Santa Barbara, Exploratory Comparative Spatial Dynamics: Integrating Computational Geometry with ESTDA.
3:20 Mark W. Horner*, Florida State U; Joni Downs, Florida State U, Examining the sensitivity of hurricane disaster relief plans to population demand assumptions.

1408. Climate Specialty Group Student Paper Competition (Sponsored by Climate Specialty Group)
Room: Continental Ballroom 8, Hilton, Ballroom Level (Paper Session)
ORGANIZER(S): Dagmar Budikova, Illinois State U
CHAIR(S): Dagmar Budikova, Illinois State U
2:00 Andrew Augustine*, Louisiana State U, Diurnal Variation of Tropospheric Ozone: A Case Study.
3:00 Jinyoung Rhee*, U of South Carolina; Greg Carbone, Ph.D., U of South Carolina;
Jim Hussey, Ph.D., U of South Carolina, Effect of Spatial and Temporal Resolutions on Drought Monitoring in the Carolinas.

Jared Diamond, Pulitzer Prize winning author of Guns, Germs and Steel and Collapse.

Jared Diamond has long enjoyed an international reputation for his work on ecology, biogeography, and more recently the role of geography in influencing human culture and society. In addition to his current best selling book Collapse: How Societies Choose to Fail or Succeed, he is also the author of the 1998 Pulitzer Prize winning book Guns, Germs and Steel: The Fates of Human Societies. An author of over 500 articles, 130 of which have appeared in Nature, Diamond has contributed more than 140 papers to ecology, geography, and history journals. He has also written almost 100 popular science pieces for Discover and Natural History.

Diamond has been on faculty in the University of California, Los Angeles (UCLA) Geography Department since 2002. Before his transfer to geography, he held an appointment for thirty-six years in the UCLA Medical School’s physiology department. Diamond received his undergraduate degree in biochemical sciences from Harvard (1958) and his PhD in physiology from Cambridge (1961).

In 1999, he was awarded the National Science Medal. Among other awards he has also been recipient of a MacArthur Foundation Fellowship, the Carr Medal, the Tyler Prize, and Japan’s Cosmos Prize. He has been elected to the National Academy of Sciences, the American Philosophical Society, and the American Academy of Arts and Sciences.

Diamond will be available following his keynote address for book signing.

This event received support from the Decade of Behavior Distinguished Lecture Program.
