AMERICAN ASSOCIATION
of GEOGRAPHERS

THE INTERNATIONAL ENCYCLOPEDIA OF GEOGRAPHY

People, the Earth, Environment, and Technology

Editor-in-Chief: Douglas Richardson

Executive Director of the American Association of Geographers

General Editors: Noel Castree, Michael F. Goodchild, Audrey Kobayashi, Weidong Liu & Richard A. Marston

The University of Wollongong, Australia; University of California, Santa Barbara, USA; Queen's University, Ontario, Canada; Chinese Academy of Sciences, China; Kansas State University, USA

Representing the definitive reference work for this broad and dynamic field, *The International Encyclopedia of Geography* arises from an unprecedented collaboration between Wiley and the American Association of Geographers to review and define the concepts, research, and techniques in geography and interrelated fields. It will be available as a robust online resource and as a 15-volume full-color print set.

- Features more than 1,000 entries ranging from 1,000 to 10,000 words, offering accessible introductions to basic concepts, sophisticated explanations of complex topics, and information on geographical societies around the world
- Assembles a truly global group of more than 900 scholars hailing from over 40 countries, for a comprehensive, authoritative overview of geography around the world
- Provides definitive coverage of the field, encompassing human geography, physical geography, geographic information science and systems, earth studies, and environmental science
- Brings together interdisciplinary perspectives on geographical topics and techniques across the social sciences, humanities, science, and medicine
- Features full color throughout the print version and more than 1,000 illustrations and photographs, plus annual updates and interactive supplemental materials for the online edition hosted via Wiley Online Library at www.geographyencyclopedia.com
