

Handbook of the Association of American Geographers

About the AAG Logo

The AAG logo consists of a world map on the Berghaus Star projection within two concentric circles containing the name of the organization and the year of its founding (1904). The Association adopted the logo in 1911.

Star projections were developed in Austria and Germany in the second half of the nineteenth century. The Berghaus Star projection, developed in 1879 by Hermann Berghaus at the Perthes publishing house in Gotha, Germany is a modification of earlier star projections. It retains the polar azimuthal characteristics of its predecessors, but interrupts the southern hemisphere only five times (at longitudes 16, 88, and 160 degrees West, and 56 and 128 degrees East). The earlier star projections interrupted the southern hemisphere at eight longitudes.

BYLAWS OF THE ASSOCIATION OF AMERICAN GEOGRAPHERS

1. Dues. All members shall pay an annual fee as set by Council and the membership. Any increase in dues shall be made in accordance with the restrictions outlined in the Standing Rules of the Association which have been adopted by Council and which have been ratified by the majority of Members voting either in person at the Business Meeting, by mailed or electronic ballot, or by any other means authorized under applicable District of Columbia law. The Council may waive the fee in individual cases that warrant special consideration. Members may obtain a waiver of further payment of the annual fee by making a single payment equal to twenty times the current annual fee (i.e., "life" membership); payments thus made shall be invested in the name of the Association. Institutional Members shall pay an annual fee determined by the Council as appropriate for the type of class represented. Members in arrears shall be dropped from the Association after due notice, according to the procedures established and announced by the Council.

2. Methods of Nomination and Election

a. Officers. The Secretary and Treasurer shall be elected by the Council from among its own members. The Nominating Committee shall make two or more nominations for each other office except that the Vice President may be named as a single candidate for the Presidency. If the Vice President is not able to accept this candidacy, the Nominating Committee must nominate at least two candidates for the Presidency. The Nominating Committee shall submit its slate of candidates to the AAG Office in accordance with the timetable designated by Council in the Standing Rules. The membership shall be promptly notified of these nominations. Additional nominations may be made in writing by any 50 members of the Association if received in the AAG Office within the time frame established by Council and outlined in the Association's Standing Rules. The Council shall have power to fill vacancies until the next election.

b. Elective Committees. A Nominating Committee of three members and an Honors Committee of three members shall be elected by mailed or electronic ballot or by any other means authorized under applicable District of Columbia law at the same time and in the same manner as officers and at-large Councillors. The Council shall make at least six nominations each for members of the Nominating Committee and of the Honors Committee. Nominations by Council to these committees shall be sent to the Members with the nominations for Officers and Councillors; additional nominations may be made in the manner prescribed for Officers and Councillors. Five years must elapse before a Past President can be a member of the Nominating Committee.

c. Voting By Members: All members of the Association shall have a single vote to cast in all matters. Member voting shall be conducted in a format and manner determined by the Council and as set forth in these Bylaws, including but not limited to mailed or electronic ballot, or by any other means authorized under applicable District of Columbia law. Members unable to vote by electronic means shall have the option by request to vote by other appropriate means.

3. Honors. The Association shall encourage meritorious achievements in geography by awarding honors in special recognition of outstanding contributions toward the advancement or welfare of the profession. The contributions may be in research, applied research, writing, teaching, committee work, administrative work, collaborative work with non geographers, or other aspects of professional geographic work. The Honors Committee shall submit to the Council nominations for awards at least two weeks before the Council fall meeting, accompanied by a statement indicating the contribution which forms the basis of the proposed award. At the Annual Meeting the President shall announce the award of such honors as the Council may have approved.

4. Past President. It shall be the responsibility of the Past President to address the Annual Meeting.

5. Committees. The Council of the Association shall from time to time designate standing committees.

6. Petition and Resolutions.

a. Fifty (50) or more members of the Association may formally petition the Council to initiate an action or to reconsider an action previously taken by the Council or at a Business Meeting.

b. The Council may choose to submit petitions and other matters of concern to the Association Membership for a mail or electronic vote at any time if it so chooses. If the Council submits a petition to the membership, the issue to be voted upon may be accompanied by brief statements from the original petitioners and by those holding opposing views. The Council may also provide a statement from the Council regarding its recommendation for the issue.

c. The Council (or the Executive Committee acting on behalf of the Council) will consider each petition in as timely a manner as possible, and the petitioners will be informed of Council (or Executive Committee) action as soon as is feasible. Such actions will be reported to the Association membership through the Council meeting minutes.

d. If a petition results in a resolution that is passed by the Council or passed by a majority of Association members present at a Business Meeting, a petition of fifty (50) or more members may request that the resolution be voted on by the Association membership as a whole. If the petition is deemed by the Secretary to be in good order, the Council must submit the resolution to a vote of the membership.

e. If a petition requests the Association to make a public statement on behalf of the Association membership, the public statement must fall within the scope of the objectives of the Association as specified in Article II of the Constitution, and it must be in accordance with the guidelines for public statements as outlined in the Standing Rules. The Council shall determine whether petitions fall within the scope of the Association objectives.

7. Publications. The Association shall issue such publications as the Council may determine.

8. Affirmative Action. In accordance to Article III, Section 5, of the Constitution, the Association shall not discriminate on grounds unrelated to professional competence such as race, religion, sex, age, national origin, or physical handicap, and shall promote policies of affirmative action among its members and the institutions with which they are affiliated with respect to hiring, admission to graduate studies, promotion and tenure, research funding, publication, and other professional activities.

9. Signatures. The Council of the Association has sole authority to designate persons eligible to issue checks, sign other financial documents, or otherwise represent the Association as its agent. Each signatory must be bonded.

10. Amendments. The Bylaws may be amended by a majority of the Members voting at the Business Meeting of the Association, such vote to be followed by, and to take effect upon, ratification by a mailed or electronic vote of all Members if the Council shall so determine.

11. Standing Rules. Additional information on the policies concerning the operation and administration of the Association is found in the Standing Rules as adopted by Council. A file of current Standing Rules shall be maintained by the Executive Director and Secretary of the AAG. The Viola Hoffman Fund was established by George Hoffman in memory of his wife in 1985, to fund master's level and doctoral research on Eastern Europe (including Yugoslavia and any new entities forming within its borders). Support may also be extended for theses and dissertations on aspects of European (including Soviet and later Russian) phenomena and processes, both historical and contemporary, and for those comparing Eastern Europe with other world regions or individual countries. The fund was renamed the George and Viola Hoffman Fund following George Hoffman's death.
