

## Commemorative Bricks

In honor of the AAG and to advance geography, the AAG is currently filling orders for personalized bricks named by donors of \$1,500 or more. Both new donors and donors who have previously made contributions in this amount are eligible to name a commemorative brick. Bricks will be placed in the walkway of Meridian Place (AAG headquarters) in Washington, D.C. Proceeds go to the Advancing Geography Fund. All contributions are tax deductible. A ceremony and reception dedicating the new brick walkway will be held on Saturday, February 17, 2007. The event is open to all AAG members.

Some suggestions for naming bricks are parents' names, your college or institution, your name and organization, your and your spouse's names, or the name of a professor or mentor you wish to honor. Personalized bricks make a unique and lasting birthday, holiday, or congratulatory gift. Buying a brick is a great way to memorialize a loved one or a mentor, while you support efforts to advance geography.

Reserve your brick today using the online payment system at [www.aag.org/cf/bricks.htm](http://www.aag.org/cf/bricks.htm) or by downloading the form available there and sending it back to the AAG with your payment. For groups that are interested in pooling their money to purchase a brick please send in a form (please do not use the online system) with the names of all donors and the amount that they gave. For questions, contact Robert Andelman at (202) 234-1450 x21 or [randelman@aag.org](mailto:randelman@aag.org).

## Geographic Centers

### South Dakota State University, New PhD in Geospatial Science & Engineering

South Dakota State University now offers a PhD in Geospatial Science and Engineering (GS&E). The program is a joint effort between the Colleges of Engineering and Arts and Science.

The GS&E PhD program provides a multidisciplinary doctoral education that focuses on geographic information science. Students in the program may declare one of two specializations: (1) remote sensing geography, or (2) remote sensing engineering, or may elect to complete the degree without a declared specialization.
