Dear President Xi Jinping,

On behalf of the 12,000+ constituent members of The American Association of Geographers (AAG), and of fellow geographers and scientists around the world, we respectfully ask for your urgent intervention to halt the execution of **Dr. Tashpolat Tiyip**.

**Dr. Tiyip** was the President of Xinjiang University and Professor of Geography<sup>1</sup> when he was forcibly disappeared in 2017, while traveling to Germany with a group of students for an academic conference. He has been detained since then and his whereabouts remain unknown. He was convicted of “separatism” in secret and grossly unfair proceedings.<sup>2,3,4</sup>

**Dr. Tiyip's** arrest and detention represents a worrisome development for anyone concerned with intellectual and scientific freedom, which should be allowed to flourish in any society, as it serves the growth and well-being of all humankind.

Sentenced to a “suspended death sentence,” which includes the possibility of commutation after two years' imprisonment when no other crimes are committed, **Dr. Tiyip** now faces imminent execution.

**We, the undersigned, call on you to:**

- Immediately halt plans to carry out the execution of Dr. Tashpolat Tiyip;
- Release Dr. Tashpolat Tiyip unconditionally, unless there is sufficient credible and admissible evidence that he committed an internationally recognized offense and is granted a fair trial in line with international standards.

Signed,

Gary M. Langham
